

Kiwifarms is not after Saphera de Noma. It's all in her head.

Saphera de Noma needs to lay off the clout chasing. That youtube money revenue fence riding for attention has gone way over her head. I have searched on kiwifarms.st and her name barely pops up as a blip on the radar. Nothing SocialJusticeWario ever says is ever directed at Saphera de Noma.

This is the only and the one and only thread where Saphera de Noma is mentioned at kiwifarms.

I have searched your name on the kiwifarms website and it's clear you are making bad faith assumptions about Cyberweasel89 without even bothering to look up the websites search engines. Might it be obvious someone sent you fake screenshots about Cyberweasel89? If I recall Saphera de Noma you went around searching up Cyberweasel's name in the internet database and getting Cyberweasel's social media accounts publicly doxxed on your youtube video while smugly proclaiming about it. You clearly lack the self esteem to ignore her and move on because you know hating on Cyberweasel89 gives you more subscribers more views and more sponsorships which is how TaktikalTemplar describes grifters.

Hi everyone! I'm really sorry for the delays on the videos I said I wanted to get out. I've been very anxious and unable to focus recently. I discovered that Cyberweasel89 is still harassing me, and this time she has even tried to blend in on Kiwifarms by the username "SocialJusticeWario" to try dox me there...

- Oh lord, a LOLcow trying to blend in on Kiwifarms? That's like an actual cow trying to hide in a room full of butchers...

- Considering that ShortFatOtaku actually wound up with a thread on Kiwi Farms because he actually went on the site and tried to white knight for an E-girl he was simping for, this WILL backfire on Cyberweasel.

- Have you thought of suing her? At this point this is beyond harassment and going into stalking territory.

- Considering the fact that she just doesn't know when to shut up and needs to get into a verbal debate, I'm sure the farms will have a field day with her.

- I know you're probably not religious but I'm praying you get some rest and relaxation and I hope that psycho finally gets off the internet eventually 🙏

- It's okay. You can produce the videos whenever you want. Most importantly, have some rest if needed to not burn out

At this point, it's a damn miracle she hasn't run out of social media platforms to go onto (although I suppose she can always use a different username). Sorry this is happening to you, though. That really sucks :/
