Jan 1, · CODE REQUIREMENTS The IECC with North Carolina specific amendments went into effect on January 1, This document summarizes changes to the building . Free Service Available · Browse Articles · Ask Questions · Financial Assistance. Get Competitive Quotes · ,+ Suppliers Listed · Human Researched Listings. The simplified table of building envelope requirements (on the previous page) applies to new residential buildings, as defined in the IECC, with wood framing and/or mass walls. For steel-framed buildings, the same window requirements apply; however, refer to IECC section R for specific insulation R-value requirements. NORTH CAROLINA STATE BUILDING CODE: RESIDENTIAL CODE. The first value is cavity insulation, the second value is continuous insulation, so “13 + 5” means R cavity insulation plus R-5 continuous insulation. If structural sheathing covers 25 percent or less of the exterior, insulating sheathing is not required where structural sheathing is used.
