

How Long Does It Take to Recover from Laparoscopic Surgery? | Hospital in Dumdum

How Much Recovery Time Is Needed After Laparoscopic Surgery ?

Laparoscopic surgery is a minimally invasive procedure that ensures faster healing, less pain, and a shorter hospital stay. If you're wondering how long recovery takes, here's a breakdown:

🔪 **Shorter Hospital Stay** – Most patients are discharged the same day or within 24 hours due to the minimally invasive nature of the procedure.

🕒 **Initial Recovery** – Within 1-2 weeks, you can resume daily activities, but strenuous exercise should be avoided.

💪 **Full Recovery** – Complete healing takes around 4-6 weeks, with mild discomfort that gradually subsides.

 **Follow-Up Care** – Regular check-ups ensure proper healing and recovery.
