What is a Dentiste Permanence?

A dentiste permanence refers to a dentist who is available for urgent or emergency cases outside regular office hours. These clinics operate during nights, weekends, and holidays, ensuring patients can access dental care when regular clinics are closed. The goal is to provide immediate relief and prevent complications.

Common Services Offered by Dentiste Permanence

Emergency dental services offered by a dentiste permanence typically include:

- Treatment for severe tooth pain
- Repairing broken or chipped teeth
- Addressing dental trauma from accidents
- Managing infections or abscesses
- Emergency root canals or extractions

The ability to receive care anytime offers peace of mind, especially when emergencies arise unexpectedly.
