

Global Dry Eye Disease Market Projected at \$431.7 Million by 2030, Growing at 7.7% CAGR

The [Dry Eyes Disease Market](#) has witnessed significant growth in recent years, driven by **[The increased prevalence of dry eye in humans is the main reason behind the growth of the syndrome treatment market]**. Our comprehensive research report titled Dry Eyes Disease market offers a thorough analysis of the current market landscape and sheds light on the market trends, competitive dynamics, and growth opportunities. Also, it identifies the top players in the market and assesses their offerings, strategies, market share, and performance to help stakeholders make informed decisions and stay ahead of the competition.

Market Overview:

According to the research report, the global dry eyes disease market is valued at USD 225.6 million in 2021 and is expected to reach USD 431.7 million by 2030, to grow at a CAGR of 4.7% during the forecast period.

Research Methodology:

Our research methodology combines qualitative and quantitative methods to offer a thorough analysis of the market. These research techniques used include:

- **Focus Groups:** Includes qualitative data and insights into customer attitudes and opinions.
- **Surveys:** Offers insights into consumer behavior, opinion, and interests.
- **Interviews:** The study covers in-depth conversations with individuals to collect information about attitudes, beliefs, and motivations.
- **Secondary Research:** The report analyzes existing data from reports, publications, and other credible sources.

All the information in the Dry Eyes Disease market research report goes through a multi-step verification method to ensure its accuracy and reliability.

List of Market Key Players:

The market has the presence of both established players and new entrants. These players are focusing on innovation and strategic partnerships to expand their global reach and increase their Dry Eyes Disease market share. Some of the key players in the market are:

- Abbott
- AbbVie Inc.
- AFT Pharmaceuticals

- Akorn Operating
- Company LLC
- Allergan
- Allostera Pharma Inc.
- AstraZeneca
- Eli Lilly and Company
- F. Hoffmann-La Roche Ltd.
- GlaxoSmithKline plc
- I-Med Pharma Inc.
- Johnson & Johnson Private Limited
- Merck & Co. Inc.
- Merck KGaA
- Novaliq GmbH
- Novartis AG
- Otsuka America
- Pharmaceutical
- Inc.
- Pfizer Inc.
- Sanofi
- Santen Pharmaceuticals Co. Ltd.
- Teva Pharmaceutical Industries Ltd

Overview of Top Companies:

Abbott Laboratories

Abbott Laboratories, established in 1888 by Dr. Wallace C. Abbott, is a global healthcare company headquartered in Illinois, USA. The company operates in over 160 countries and employs approximately 114,000 people. Abbott's diverse portfolio includes:

- **Diagnostics:** Providing advanced diagnostic solutions to aid in disease detection and management.
- **Medical Devices:** Offering products for cardiovascular care, diabetes management, and neuromodulation.
- **Nutrition:** Supplying nutritional products for infants, adults, and those with specific dietary needs.
- **Branded Generic Pharmaceuticals:** Delivering affordable medicines in emerging markets.

In 2023, Abbott reported sales of \$40.1 billion, reflecting its significant presence in the global healthcare sector.

AbbVie Inc.

AbbVie Inc. was formed in 2013 as a spin-off from Abbott Laboratories, focusing on research-based pharmaceuticals. Headquartered in North Chicago, Illinois, AbbVie employs around 50,000 individuals and operates in over 175 countries. The company's key therapeutic areas include:

- **Immunology:** Developing treatments for autoimmune diseases.
- **Oncology:** Advancing therapies for various cancers.
- **Neuroscience:** Addressing neurological disorders.
- **Eye Care:** Providing solutions for ocular conditions.
- **Virology:** Focusing on antiviral treatments.

AbbVie's notable products include Humira, Skyrizi, and Rinvoq. In 2020, AbbVie expanded its portfolio by acquiring Allergan, enhancing its presence in aesthetics and eye care.
