

Games Global Meets Nordic Myth On The Door Of Asgard Power Combo

Infinity Dragon Studio, a dedicated studio for Games Global, has launched a groundbreaking new slot "Gate of Asgard Power Combo" featuring Nordic mythology, taking advantage of a strong lineup of three different Link & Win features that can be combined.

Gates in the Asgard Power Combo, based on a 5x3 grid with 40 paylines, is putting Infinity Dragon Studios on the map and preparing to become a major game in the slot world. After the veteran team has created it, players will begin their journey with Vikings, who collect various variance symbols to unlock various Link & Win bonus rounds.

The blue Power Combo dispersion enables an extended reel, giving players the opportunity to unlock the 5x5 grid and increase their chances of winning. Landing the red Power Combo dispersion gives you instant rewards through coin collections and jackpot prizes of up to 2,500x. Finally, the purple Power Combo dispersion introduces a random multiplier of up to 5x, increasing the value of the coin prize every spin.

However, the superhuman power of this game actually sets in when two or three of these different color scattering land together, triggering a power combo and unleashing an incredible storm of the combined Link and Win feature for wins up to 10,525x.

The Gates of Asgard Power Combo also introduces the Viking Balo Bonus feature, where transcription symbols are collected from the Bonus Meter. One spin will be awarded when the feature is activated, along with the opportunity to instantly trigger a single or combination of link-and-win features to enhance potential rewards.

Based in Sydney, Infinity Dragon Studios is passionate about creating unique and engaging experiences by focusing on premium video slots. With innovative game designs and engaging math models that excite players, the studio pushes boundaries to bring new levels of excitement and entertainment to the slots.

Phil Mason, studio director at Infinity Dragon Studios, said, "We are excited to bring the Gates of Asgard Power Combo to life by leveraging Link&Win's power in collaboration with Games Global. With our team's dedication and expertise, we have created games that span big math, big mechanics, and big entertainment."

Andy Booth, chief product officer at Games Global, added, "We are excited to introduce Gates of Asgard Power Combo to our customers and players. It is the most powerful game ever released by Infinity Dragon Studios based on its performance during its exclusive release, leveraging the popular Link&Win Mechanic." [무료슬롯사이트](#)
