

EveryMatrix introduces SlotMatrix

B2B software provider EveryMatrix announces the launch of SlotMatrix, a pure B2B casino content aggregator providing fast access to the largest collection of gaming content in the world with zero platform fees.

SlotMatrix is the company's latest addition to its growing portfolio of iGaming solution. The new product makes available the largest casino collection in the world via one simple integration and zero platform fees.

iGaming operators get fast access to over 175 game studios, including established suppliers and up-and-coming brands bringing a variety of slot titles. SlotMatrix pairs together unique and proprietary content with a dedicated Back-Office and a wide range of promotional tools for acquisition and retention.

Mathias Larsson, Managing Director of SlotMatrix, comments: "There is a noticeable void in the market for a pure B2B product where an operator can take content from multiple gaming providers at no extra cost. [에볼루션 바카라사이트](#) The new SlotMatrix aims to provide swift access to an industry-leading portfolio of titles from hundreds of studios without the heavy platform fees.

"Besides the fact that there are no B2B providers on the market having this type of product, we also have more content available than any other aggregator. 2022 starts with a bang and we're excited to see how we can support operators in fulfilling their content needs this year."
