

Best Cement Manufacturers and Suppliers in India

Primegold is a pioneer & premier [cement Manufacturing and Supply Company in Delhi NCR](#). We are among first few best cement manufacturing companies in India and have a reputation of supplying supreme quality products to our customers across the nation for construction of roads, bridges and residential structures. Our remarkable product quality, top-notch manufacturing process along with affordable pricing, makes primegold cement popular in the industry. Adherence to strict quality control, efficient processes, usage of high-quality limestone and coal, and through the use of latest state of the art technology has helped us to maintain the reputation as manufacturers and suppliers of supreme quality cement in the market.

Strong network of cement dealers and [cement distributors](#) across the major Indian location such as Delhi NCR, Gwalior, Tamil Nadu, Kolkata, Jharkhand, Hyderabad, Raipur, Gujarat, Punjab, Andhra Pradesh, and Uttar Pradesh has helped us to serve our customers all across the different regions of India. Special care is taken that the quality of the cement is not contaminated post-production and hence the packaging is done in high quality polypropylene/white paper bags. This ensures that there is no seepage while handling the product.

Primegold group gives the name "[PRIMEGOLD](#)" for TMT Bars and Cement which is manufactured in Shree Gopal Concrete Pvt Ltd as state project in Kolkata. Primegold is popular in West Bengal for the quality at affordable rates for TMT Bars & Cement
