

Restorative Dentistry San Francisco & West Portal | Anchor Dental

[Restorative Dentistry San Francisco](#), treating, and managing oral health issues to restore the function and appearance of your teeth. This field of dentistry aims to repair damaged, decayed, or missing teeth, ensuring that your mouth functions properly and looks great.

Common restorative procedures include fillings, crowns, bridges, root canal treatment, dentures, and dental implants. Fillings repair cavities, while crowns and bridges restore the structure of damaged or missing teeth. Dentures and implants replace missing teeth, helping you maintain proper bite alignment and facial structure.
