Orangescrum in 2024: A Year of Transformation and Breakthroughs

As we bid farewell to 2024, it's time to reflect on a transformative year for Orangescrum. This year has been all about growth, innovation, and delivering powerful solutions to enhance the project management experience.

We've focused on cutting-edge features, performance improvements, and critical bug fixes to make your work smoother. Here's a breakdown of the major updates and achievements shaping 2024.

We Launch OConstruction: Revolutionizing Construction Project Management

As we close out 2024, Orangescrum is excited to introduce OConstruction, our latest solution designed specifically for the construction industry.

This new offering marks a significant milestone in our mission to help businesses across industries streamline their operations, enhance collaboration, and manage projects more efficiently.

OConstruction is built with the unique challenges of construction project management in mind.

From complex timelines to intricate budgeting, it provides a comprehensive platform to oversee every stage of the project lifecycle—ensuring your team stays on track, on budget, and aligned with stakeholders every step.
