The Creative Curriculum® for Preschool helps teachers understand that they play an important role in supporting children's development of executive function skills. Executive function skills . "Executive function is a set of mental skills that include working memory, flexible thinking, and self-control. We use these skills every day to learn, work, and manage daily life. Trouble with . As educators, we can integrate practices and strategies that support our students with their cognition around their executive functioning to build their own personal toolkits. The resources . "Executive function is a set of mental skills that include working memory, flexible thinking, and self-control. We use these skills every day to learn, work, and manage daily life. Trouble with executive function can make it hard to focus, follow directions, and handle emotions, among other things." The ability to. As educators, we can integrate practices and strategies that support our students with their cognition around their executive functioning to build their own personal toolkits. The resources provided here are intended to be tailored and utilized as stepping stones to do just that. Need a fun way to check in with your students each day?. It's organized into three broad categories where executive skills come into play: learning; behavior and emotions; and social situations and relationships. Each section includes tips for providing support and practice in specific skill areas.
