

MakotoLitch Mugengalaxystar deletes his intervubers twitter after he spotted me

He looked through my doxxed browsing history to delete his own intervubers account. Watch out for MakotoLitch he is not a whiny internet troll as you think. He is a white supremacist fascist of an internet troll willing to spy on your browser history. Makotolitch as intervubers harassed [KStubbornGull](#) out of his cruel need for negative reaction to fulfill his sense of humor.

"Classic Twitter moment" - you being owned for your pathetic attempt to gaslight? Yeah, true. To say it again - the only reply to her Gachiakuta thing touching on the drama is yours. YOU'RE the anti in context. YOU. Whatever is being said on other threads is on the other threads

your projection is pathetic. Haven't you embarrassed yourself enough for today? I'm a cruel person. I will happily keep helping you to look like an idiot.
