

How Much Do CPC Medical Coding Fees Cost in India?

Medical coding, particularly the Certified Professional Coder (CPC) credential offered by the American Academy of Professional Coders (AAPC), is gaining popularity in India thanks to the increasing demand for qualified medical coders. But how much does it cost to get certified? Here's a breakdown.

Even though the exam is U.S.-based, many Indian aspirants take the exam online. According to resources, the **CPC certification exam fee** is around **\$530**, which includes one free retake [medicalcoder.in](https://www.medicalcoder.in). This translates to approximately ₹45,000–₹46,000 depending on current exchange rates.

- Transorze Solutions (Kerala-based) lists medical coding training but similarly doesn't show CPC exam fees transorze.in.

If considering such providers, it's best to reach out directly for pricing details.
