

# SPV for Investment: The Easy Way to Invest Together

An [SPV \(Special Purpose Vehicle\)](#) helps people put their money together to invest in big things like businesses, houses, and other projects. Instead of doing everything alone, an SPV makes it simple and safe for many people to invest as a group. SPVs lower complexity and risk by enabling several investors to take part in a single investment under a structured legal organization. SPV Hub takes care of all the hard work like money, rules, and paperwork. This way, investors can focus on making money.
