

Gulf x Everrati An Electrifying Partnership - Gulf Oil Middle East

As Gulf looks to the future of automotive needs it makes sense to partner with [Everrati](#) who are redefining the future of sports cars by renovating classic cars into electric vehicles. By 2030 it is forecasted that 32% of new cars sold around the world will be electric, therefore modernising classic cars enables us to keep these incredible pieces of history as we move into the future.

The first vehicle to come out of this collaboration is the electric-powered Porsche 911 Signature Gulf Edition which is now available for sale to the public. The zero-emissions 911 Signature Gulf Edition is just the steppingstone for what is sure to be a historic partnership. This iconic car is the perfect marriage between a classic body style with a modern electric powertrain. However, this is just the beginning. More classic car renovations are on the horizon so watch this space.
