 - Breakfast Burrito**

Running a successful restaurant today requires more than great food and service—it demands a strong online presence. With more customers ordering online, an online storefront and delivery system are essential for staying competitive. But high fees and commissions can eat away at your profits. That's where Straunt, the [all-in-one restaurant management system](#),

comes in. With Straunt, you can set up a \$0 cost online storefront and delivery service, allowing you to grow your sales without worrying about setup fees or hidden charges.

Why Your Restaurant Needs a Zero-Cost Online Storefront

Many restaurants rely on third-party platforms that charge high commissions for online orders and deliveries. These fees impact your bottom line and often make it difficult to turn a profit on digital orders. Straunt's unique solution provides a commission-free online storefront and delivery system, meaning you keep 100% of the revenue from every order. With no setup fees and zero hidden costs, Straunt lets you focus on serving great food, not managing expenses.

Key Features of Straunt's \$0 Online Storefront

1. No Fees or Commissions

Straunt allows you to set up a complete online ordering system at no cost, with zero commission on orders. This way, you keep all your earnings without the limitations of third-party platforms.

2. Seamless Website Integration

Straunt's storefront integrates directly with your existing website, creating a smooth ordering experience for customers. This approach keeps your brand front-and-center, helping you build stronger customer loyalty.

3. Real-Time Delivery Management

Straunt makes managing deliveries easy, from order preparation to drop-off. With real-time updates, you can ensure customers receive their orders on time, improving satisfaction and increasing repeat orders.

4. Mobile-Friendly Ordering

Mobile orders are now the majority. Straunt's storefront is optimized for smartphones, so customers can browse and order directly from their phones without any hassle.

5. Built-In Loyalty Program

With Straunt's loyalty and rewards system, you can incentivize customers to order directly from your storefront, bypassing third-party apps. This builds customer loyalty and reduces reliance on costly external platforms.

How Straunt's \$0 Online Storefront Drives Sales

1. Reach More Customers

A 24/7 online storefront means customers can order anytime, bringing you more sales and greater visibility in your community.

2. Enhanced Customer Engagement

Straunt includes tools for automated marketing campaigns, helping you reach customers with promotions, discounts, and updates. This keeps your customers engaged and encourages repeat orders.

3. Data-Driven Decisions

Straunt's data insights allow you to see your sales trends, popular items, and customer preferences, helping you make strategic decisions to boost sales and profitability.

Straunt's \$0 online storefront and delivery system can help you expand your reach, build customer loyalty, and increase your revenue—all without setup fees or commissions.
