📍 4th Lane, Near Harihar Cinemas, Lakshmipuram, Guntur. ☎ 0863 - 2229444 | +91 86808 71234

With each heartbeat, around 20-25% of your blood flow goes to your kidneys, a higher rate than most organs. This high blood flow is essential because your kidneys filter out toxins, excess fluids, and waste products from your blood, ensuring that everything stays in balance.

If there's any disruption in kidney function, it can lead to serious health problems like kidney disease. For the best care in Guntur, you can consult Dr. Y. Haritha, one of the [Best General Surgeon In Guntur](#). With years of experience, she provides expert guidance on maintaining optimal kidney health and overall wellness. Don't wait until problems arise—take proactive steps now.

Reach out to Sanjivi Hospitals, where you'll find the [Best General Surgeon In Guntur](#) to help guide your kidney health journey.
