The Certificate III in Carpentry Sydney offered by [Australian Health and Management Institute \(AHMI\)](http://www.ahmi.edu.au) is a practical, career-focused program that equips international students with the skills and knowledge required to succeed in Australia's thriving construction industry. This trade qualification is ideal for students aspiring to work in residential or commercial carpentry, offering hands-on experience with timber and non-timber materials and covering all aspects of manufacturing, constructing, assembling, and repairing structures.

## Comprehensive Curriculum

The program consists of 34 units, including 27 core and 7 elective units, aligned with industry standards. Students learn a wide array of skills, such as:

- Setting out and constructing frameworks.
- Installing and repairing timber structures.
- Working safely and effectively in construction sites.
- Applying advanced construction techniques in both residential and commercial settings.

These practical skills ensure that graduates are fully prepared to meet the demands of the Australian job market.

## **Pathway to Employment Opportunities**

International students who complete the [Certificate III in Carpentry Sydney](#) are qualified for a variety of roles, including:

- Carpenter (Commercial)
- Carpenter (Residential)
- Carpenter (Formwork)

This qualification also offers pathways to advanced studies, such as the [Diploma of Building and Construction \(Building\)](#), which can lead to supervisory or management positions in the construction industry.

## **Supportive Environment for International Students**

At [AHMI](#), international students benefit from a supportive learning environment that accommodates their unique needs. The program is designed to provide:

- Flexible Learning Modes: A mix of face-to-face, online, and self-study sessions (approximately 20 hours per week).
- Workplace Training: The opportunity to gain real-world experience in closely simulated or actual workplace environments.
- Entry-Level Accessibility: No prior experience in carpentry is required, making it a great option for students looking to start a new career.

## **Meeting Australian Standards**

To ensure safety and compliance, students complete the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (ASCC 2007) before entering a construction site. This training, combined with WHS-focused coursework, ensures students are prepared to work safely in Australia's construction environment.

## **Entry Requirements for International Students**

International students must meet the following criteria:

- Be 18 years or older at the time of enrollment.
- Have completed Year 12 or its equivalent to the Australian HSC.
- Meet English language requirements, such as an IELTS score of 6.0 (no band less than 5.5) or equivalent in the Pearson Test of English (PTE).

## **Why Choose AHMI?**

AHMI is committed to delivering quality education tailored to meet the needs of international students. With experienced faculty, state-of-the-art facilities, and a curriculum aligned with industry standards, AHMI ensures students are well-prepared for both immediate employment and long-term career growth in carpentry.
