

Choosing the Right Wood for Your Timber Frame Pavilion

Selecting the appropriate wood for your timber-frame pavilion might often be more about sustainability, style, and durability than aesthetics. You must choose the appropriate wood type for your pavilion project because different wood types give your outdoor space a distinctive appearance. From rustic redwood to timeless oak, learn which option will provide your pavilion a lasting legacy of strength and elegance; check out our blog about [***Choosing the Right Wood for Your Timber Frame Pavilion***](#) or contact us at (801)-900-0633 or [***info@wrighttimberframe.com***](mailto:info@wrighttimberframe.com).
