# Connect with Covalense Digital Solutions at MWC 2025

Transform your digital transformation with Covalense Digital's Csmart suite — an innovative platform designed to empower telecom providers and enterprises. Our solution merges AI-powered insights, real-time analytics, and a dynamic marketplace to drive new revenue streams and enhance customer experiences.

Discover the next-generation Csmart Digital BSS platform, built to support telecom providers through the 5G era and beyond. Based on TM Forum's Open Digital Architecture (ODA) standards and utilizing Open APIs, Csmart Digital BSS accelerates the digital transformation journey for Mobile Network Operators (MNOs), Mobile Virtual Network Enablers (MVNEs), Mobile Virtual Network Operators (MVNOs), FTTx, IoT providers, satellite operators, and enterprises.

Join us at MWC Barcelona, booth #5K37, for personalized demos and consultations to see how Csmart can enhance your operational efficiency, business agility, and sustainable growth.

Recent Success Stories: **Exceeding Expectations**

An African MNO onboarded twice the number of expected subscribers.

Expanding Reach

A successful multi-country launch for an APAC MVNO.

Outstanding Results

A significant reduction in churn for an African MNO.

Fast Track Success

Launched a European MVNO in under 100 days.

Cost-Effective Transformation

Achieved a major OPEX reduction for an Asian MVNO.
