SUP Y'ALL 🤙

so today (and possibly tomorrow, it's night and this might take a while and WHY ARE THE KEYS SQUEAKING-) I will be giving warrior names to characters from Demon Slayer :DD
So the first character will be . . . drumroll please . . .

The MAIN CHARACTER, obviously! Right?

nope I'm doing the Hashira from tallest to shortest hehe

Starting with the tallest Hashira (he's literally like 7 feet tall-), Gyomei Himejima :O

He looks really terrifying, but is actually really nice and likes cats! I think "Stone" would be a good prefix for him because he's the Stone Hashira (basic, I know) but like seriously, it fits. And for his suffix, maybe "pool"? Because he's . . . quiet? I guess? uhh yeah.

✨ Stonepool ✨ I actually really like that lol, the "stone" kind of gives off a more ✨ menacing ✨ vibe ✨ ✨ ✨ ✨ (I should probably stop using that emoji 😊)

Now for Tengen Uzui, because he's the second tallest! :DD He's the Sound Hashira, has three wives, and is super awesome

I actually feel like Snowfox would be a really good name. For "snow": he has white hair, he's sort of like a ninja so like . . . quiet vibes?? idk 🤔 and now I'm realizing he is in no way quiet- And for "fox", sneaky vibes I guess 😬

SANEMI TIMEEEEEEE ✨ ✨ ✨ ✨ (Nightkit stop using that emoji-)

Sanemi Shinazugawa is the Wind Hashira, has a traumatized Kit Kat for a brother, and hates everything :DD

His suffix is definitely claw or fang 😬 because those suffixes are usually used for sort of violent cats, and Sanemi is VERY violent. For his prefix, I think Breeze would fit, obviously because he's the Wind Hashira, but it also just sounds nice :DD So he's uhh . . . Breezclaw! and now for Kyojuro Rengoku! 🤦 (I'M SORRY-) I'm just going to call him Rengoku because calling him Kyojuro feels weird which is probably due to the fact that pretty much everyone in the show just calls him Rengoku

✨ final results ✨

Gyomei - Stonepool

Tengen - Snowfox

Sanemi - Breezclaw

Rengoku -

Giyu -

Mitsuri - Brightbreeze

Obanai -

Muichiro - Mallowdrift

Shinobu -
