

Staff Augmentation Vs Outsourcing

iVALUE+

Staff Augmentation vs Outsourcing: Differences

Feature	Staff Augmentation	Outsourcing
Control	You maintain control over the project	Outsourcing company controls the project.
Flexibility	Highly flexible, scale up/down easily	Less flexible, set scope and terms
Team Integration	Integrates with your in-house team	Works separately from your team
Cost	Pay for specific skills or time	Fixed or long-term contracts
Expertise	Temporary access to niche skills	End-to-end expertise and solutions
Suitability	Short to medium-term needs	Best for long-term projects
Focus	In-house focus on core goals	Outsourcing frees up internal resources
Ramp-Up Time	Fast, staff can start quickly	Longer onboarding process
