

Role of Ancient Indian Education Systems: Gurukulas and Learning - Nishant Verma

India has a long and proud history, and education has always been an essential part of it. Thousands of years ago, in ancient Indian Education Systems, there were no schools or universities like we have today. Instead, there were special places called Gurukulas where children learned important lessons about life, philosophy, and science. These Gurukulas were the centers of learning that helped shape the minds of many great thinkers, rulers, and scholars who lived in ancient India.
