Contributor: Sakakino

Day 22, and today I'm here with Sakakino, who brings us a nice riddle that will bring us a little closer to its surprising and fantastic culture, and 8 giveaways that we're bringing you, of course.

Welcome to Japan! Solve this easy riddle and open the lock. You can use Google or the contributor's latest thread; they'll surely help.

^(=￣∇￣)ノ Hey, hello! Welcome to the amazing big event hosted by gus09!

I've decided to present my puzzle in Japanese! Now, experience the craziness of Japan!

All the answers this time are numbers. (Don't worry, they're easy to find if you look them up!)
