Streamline Your B2B Operations with Expert EDI Services

Efficient data exchange is the backbone of modern businesses. iTech offers comprehensive EDI services—spanning EDI Development, Managed File Transfer, Integration, Modernization, and Cloud Migration—designed to enhance operational efficiency and ensure seamless communication with your trading partners.

With expertise in X12 and EDIFACT standards, secure AS2/SFTP protocols, and advanced mapping capabilities, we handle everything from purchase orders to payments. Our customer-centric approach tailors solutions to your needs, enabling digital transformation, reducing errors, and accelerating market responsiveness.

Industry-Specific Excellence:

- **Logistics**: Automate data exchange with formats like EDI 204, 210, and 214, streamline supply chain operations, and ensure timely deliveries.
- **Retail**: Optimize inventory management, order fulfillment, and supplier integration with formats like EDI 810, 850, and 860 for faster transactions and improved customer satisfaction.
- **Healthcare**: Securely exchange patient data and billing information with formats like EDI 837 and 835, reducing administrative overhead and enhancing patient care.

Partner with iTech to transform your B2B operations, achieve optimized workflows, and focus on strategic growth. [Contact us today](#) and take the first step toward operational excellence!
