

About Firsto

👋 About Firsto

Hi, we're **Firsto** — [a fresh launch platform](#)

built for makers, indie hackers, and developers. 🚀

🌟 Why We Built Firsto

We believe every product deserves to be seen — not just the trending ones, not just those featured or highly upvoted.

Too often, great products go unnoticed simply because they didn't "go viral" on day one. That's not fair, and that's not how innovation should work. So we built **Firsto**, a platform designed to give visibility to *all* launches, no matter how big or small.

With Firsto:

- You don't need to wait to get featured.
- You don't need 10,000 followers to get discovered.
- You don't need to "game" any system.

We focus on **fair discovery**, **continuous visibility**, and **creator ownership**. Whether it's your first side project or your tenth startup — **Firsto is here to amplify your work.**

🌟 What Makes Firsto Different?

- 🕒 Launch any time — not just once
- 📊 Every project gets equal discovery chances
- 💬 Feedback-driven, community-powered
- ✨ Built for solo devs, small teams, and ambitious dreamers
