Styleguide for Jim Blankemeier promotion

Here are typefaces for consideration in co-promoting **Jim Blankmeier**. *Bebas Neue* is the primary typeface used by Jim Blankemeier for its legibility and simple, modern, and recognized look.

Bebas Neue

Bebas Neue is a sans serif font family based on the original **Bebas Neue** free font by Ryoichi Tsunekawa. It has grown in popularity and become something like the “Helvetica of the free fonts”.

Now the family has four new members – Thin, Light, Book, and Regular – added by **Fontfabric Type Foundry**.

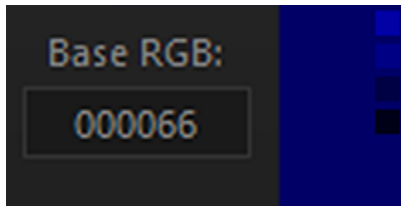

The new weights stay true to the style and grace of **Bebas** with the familiar clean lines, elegant shapes, a blend of technical straightforwardness and simple warmth which make it uniformly proper for web, print, commerce and art.

Original Designed by Ryoichi Tsunekawa, Dharma Type Foundry.
