**4/10/17 WHITE HOUSE SOURCE: Trump Pushes Back Against Neo-Con Plan to Invade Syria** --Assad is apparently backing away from a deal he made with the Pentagon four years ago to step down from power in order to prevent a U.S. military bombardment that Obama pushed for back in 2013. The air strike ordered by Trump was apparently a reminder to Assad of the deal he struck to step down once jihadists had been defeated. Troop numbers are now being massively escalated in western Iraq to reinforce this message, including the 11th Marine Expeditionary Unit, to back up and cover the flank for U.S. Army ground forces in case of possible attack by Assad.

**Golan Heights, Israel, Oil and Trump** -- Israeli Prime Minister Benjamin Netanyahu was one of the first heads of government to go to the United States to meet Donald Trump on February 16, in Trump's new role as President. After the event major media focused on the themes of Israeli settlements in the West Bank, the Iran nuclear deal or a Palestine two-state solution. Virtually no mention was made by CNN or other US mainstream media of the most strategic point the two discussed. **Netanyahu asked the US President to recognize the Israeli illegal occupation of Syria's Golan Heights, something no US President has done since Israel openly declared it theirs in 1981.**

**Russia, Iran, Hizballah set up joint command in Syria.** A new joint command center made up of the forces of Russia, Iran and the pro-Iranian Shiite militias supporting Syrian President Bashar Assad accused America Sunday of waging aggression on Syria and crossing red lines. The center issued this warning: "From now on we will respond with force to any aggressor or any breach of red lines from whoever it is [against the Assad regime] and America knows our ability to respond well," said the statement. It was issued in response to the US missile attack Friday on a Syrian air base from which chemical weapons were launched against civilians. The joint command center also said the presence of U.S troops in northern Syria where Washington has hundreds of special forces helping the Syrian Democratic Forces (SDF) to oust Islamic State was "illegal" and that Washington had a long-term plan to occupy the area.

**Dr. Steve Pieczenik** Explains How Trump Staged Syria Gas Attack In Order to Influence Chinese President Xi Jinping to Rein-in North Korea Nuke Threat. If you Believe Pieczenik's Story you're also required to believe Trump was counting on "Fake News" to Push the Lie About an Assad Gas Attack. You are Also required to believe that China continues to be fooled by the coordinated and staged False Flag gas attack that is so obviously transparent in multiple sources of alt media and Russia Today. Pieczenik also claims the threat of "regime change" in Syria is not real even while insistent claims are loudly spoken in Trump's administration and Congressional Neocons. On the Bright side, if Pieczenik is wrong on his analysis he promises to admit he was wrong.

The Case of WMDs: WHO USED CHEMICAL WEAPONS IN SYRIA? - As a matter of fact, the agents of Mossad who are in collaboration with the CIA sympathizers, Syrian rebel groups and the ISIL militants arranged terror attacks in Paris, Brussels, Orlando, San Bernardino, Nice, Munich, London, St. Petersburg and now in Stockholm. These were false flag terror operations and were part of the secret strategy and dual game of America, and especially of Israel, who are in connivance with each other in order to obtain the covert aims of their countries against Russia and the Muslims.
