

FREE DVD GIVEAWAY: "9/11: Blueprint for Truth - The Architecture of Destruction".

FREE DVD GIVEAWAY: I have several extra copies of the 2008 DVD "9/11: Blueprint for Truth, The Architecture of Destruction".

The finding of "controlled demolition" in the near free-fall acceleration collapse of the TWIN TOWERS and Building-7 on 9/11/2001 is proven beyond a reasonable doubt. This finding is supported by several University of Florida alumni with advanced degrees - some of who live in Gainesville/Alachua County. These and thousands of supporters worldwide are joining AE911TRUTH.org in a petition for a new investigation of the Twin Tower and Building-7 collapses.

SCIENCE RULES: In this video, Architect, Richard Gage, AIA avoids politics and finger-pointing by providing a compelling presentation using the rigors of the "scientific method" where the hypothesis of controlled demolition is 100% demonstrated as hard fact.

The [AMAZON](#) Companion version of this DVD continues to show a 5-star rating by over 75% of purchasers who reviewed the content. ([Here](#))

Richard Gage has now released the video into the public domain on the AE911Truth
