okay day 229 part one so yes you know

0:07

this is an investigation I for everybody

0:09

to just keep perspective here for a

0:10

second we have a spy ring called the

0:12

Awan brothers on Capitol Hill okay

0:15

I not only said that it looks like

0:19

they're getting satellite technology out

0:21

to Pakistan but there is a severe risk

0:25

here that the folks that are doing the

0:28

spying on the key congressional

0:30

committees could endanger the lives of

0:32

Americans I also said that with Gulen

0:36

and Berlin's history of soft targeting

0:38

soldier populations with opioids was

0:41

also a dangerous situation he's done it

0:44

for 30 years his best partner calls him

0:46

a terrorist calls Roland's organization

0:49

f PTO a terrorist organization wants to

0:52

extradite him for the illegal coup of

0:55

Turkey

0:56

okay so realize when I am on the move

1:01

investigating and Jason's on the move

1:03

and the group is on the move

1:04

we're trying to keep the next helicopter

1:06

that's going to fly a mission into Yemen

1:08

in the air they the once formed a

1:12

company new dawn corporation on the 29th

1:14

of July 2011 a week later we had 22 Navy

1:19

SEALs died 30 30 people in all worst day

1:22

in the Afghan war in terms of death okay

1:24

right after they formed that corporation

1:26

they're the ones who formed Nano set

1:28

technologies I did inform Nano set

1:30

technologies

1:32

Sariah begum and Golani and the whole

1:35

crew are in Emraan one's home in Lorton

1:40

Virginia okay

1:41

so I just want to keep perspective here

1:43

this isn't like some academic exercise

1:46

Imran Awan still is contact contracting

1:49

with debbie Wasserman Schultz so that's

1:52

that's the important part here now

1:53

regarding Corrections and so forth we

1:55

love Corrections correcting the record

1:57

is what we love that that's probably my

1:59

favorite thing now I reported I believe

2:02

a Pat Crowley I've gotten a lead not in

2:04

what if this is a call and response

2:06

mechanism here I reported that maybe

2:08

there's a Pat Crowley that was Seth

2:10

Rich's boss at one time

2:11

at the DNC a William Crosley last night

2:15

went forward and went to a che Goodman

2:18

said he's never worked for the NGP van

2:20

he's never worked for the DNC NGP van

2:22

that's great I love Corrections I never

2:26

said anything about William Crosley you

2:28

know I all I said was I believe he

2:30

worked for him he was tough britches

2:31

boss I actually I said Pat Crowley and I

2:33

still don't know if that's true but that

2:35

led to finding out and Ruthie Rio was

2:37

actually the boss that ad Ruthie Rio

2:39

worked with him at Greenberg before that

2:42

it was his mentor so we've really got a

2:43

lot of understanding out of that

2:45

situation again look at the police

2:49

effort no with no body cams no camera

2:52

cameras of the night from the club at

2:54

Lou's barn grill no cameras at MedStar

2:57

no cameras at Howard so none of the

3:00

metadata that you would normally need an

3:01

investigation so those are the things

3:04

but you have to you have to consider you

3:06

know in an online investigation it's I

3:09

would rather investigation be in the

3:11

open where we continually feedback

3:14

information and continually correct

3:15

rather than oh well we're just going to  
3:18  
take the police's word for it because  
3:20  
the police so far haven't done such a  
3:22  
great job and I've shown men over and  
3:23  
over again and all the murder  
3:24  
investigation scenes that I've gone to  
3:26  
so what I'm trying to say to everyone is  
3:28  
I always will pursue the truth and I'll  
3:31  
always make corrections so with William  
3:33  
crossbow we'd love to have you on the  
3:34  
show explain explain what your role was  
3:37  
at the N see if you were at DNC I would  
3:40  
love to hear it so that's the first  
3:42  
thing the second piece of this is we  
3:45  
have to we have to keep moving  
3:46  
we can't slow down if we make a mistake  
3:48  
we can't slow down CNN a year later is  
3:52  
still reporting the PP dossier I think  
3:54  
people lose sight of that  
3:55  
BuzzFeed yesterday had \$100 a plate or

3:59

whatever a confab here they're the ones

4:03

who reported the PPTA a year later they

4:06

have not corrected that that's about the

4:07

president that United the United States

4:09

they're trying to impeach the president

4:11

based on that so if I miss it back here

4:14

or miss it back there I don't really

4:15

ever remember saying William Crossley's

4:17

name

4:18

but I will say I apologize if I had you

4:22

at NGP ban being an IT expert that's not

4:25

like some of the things that's been said

4:26

about me online when I would met with

4:27

Kissinger in 90 or 91 or whenever it was

4:30

I met him 89 in Czechoslovakia so we the

4:36

helicopters unless somebody tells me the

4:38

Navy stopped sending helicopters out no

4:40

more Navy SEALs go on missions anymore

4:42

I'm going to keep going there's no

4:43

choice so waiting Koslow please call

4:48

anybody else at DNC please call we'll

4:50

have you on the show

4:51

what I don't want to do is say oh you

4:53

made a mistake we need to shut the

4:55

investigation down if CNN did that if

4:57

New York Times did that we would

4:59

remember Dewey beat Chicago Tribune

5:01

Dewey defeats Truman that seemed like an

5:03

error to me you know did they'd shut the

5:05

paper down no we've got to keep going

5:06

again if the risks weren't so high it

5:09

would be fine if open it if I read the

5:11

paper Ohio opiate deaths have plummeted

5:13

because of something that had happened I

5:16

would say great let's shut it down no

5:19

they've tripled so again we have to keep

5:21

perspective we have to do with the major

5:23

outlets - we always said we have an

5:25

absence of malice we try to report the

5:27

facts thank somebody is an IT expert at

5:29

NGP van is not is not a capital crime

5:32

and I will correct it if we make a

5:35

mistake now what we also do are is we're

5:37

back filling with these complete

5:38

in-depth interviews okay so in the case

5:41

of the recess Ridge we did a long

5:44

45-minute of interview with rod wheeler

5:47

from the person himself so he could

5:48

correct the record so we give them a

5:50

chance to correct the record any new

5:52

evidence the FBI bullet or whatever that

5:53

came out of that or the you know I think

5:56

the FBI bullets probably the big news

5:58

they're the same - the same token we did

6:01

the same thing with NGP van we just

6:02

haven't had time to cut it yet Jason is

6:05

upstairs right now cutting the footage

6:06

of dr. jerome corsi oh I can't count how

6:09

many times we said this is going to be

6:11

the final arbiter of NGP van and we're

6:13

going to build on top of that we're

6:14

going to go with an intelligence experts

6:16

assessment then we'll build on top of

6:18

that so we keep trying to feather in

6:20

behind us with black top after we create

6:22

the kind of dirt road

6:24

and and we have to move along like that

6:25

we cannot stop I said a Lionel nation

6:28

great interview last night you're going

6:30

to see that pretty soon Jason did a

6:32

great job that's the same situation

6:34

where he is going to help us bring more

6:39

people to this to this to this fight he

6:43

said what's the one thing that you want

6:44

to achieve most I said he wanted like

6:47

what's the big idea and Jason said and

6:49

the largest criminal network ever in

6:52

politics I said if someone would say the

6:55

words a Juan brothers if Donald Trump

6:57

would say the word phrase the one

6:59

brothers in a tweet Donald J Trump would

7:01

say that or Eric would say a Juan

7:03

brothers that would be what I'm Mike

7:05

cherubic would say a Juan brothers in a

7:07

White House press briefing in a question

7:09

I am focused on that next step which is

7:12

getting somebody into Congress to say a

7:14

Juan brothers other than Louie Gohmert

7:16

so that's where we're at that's how we

7:18

have to do this the lives of American

7:21

servicemen right now and the lives of

7:25

veterans and retirees and also people

7:27

who are just involved in the families of

7:29

those people are more important than me

7:33

right now they're more important than

7:34

the investigation until the authorities

7:37

take the responsibility and step up and

7:39

do their job I cannot quit in that role

7:44

I cannot quit net role we almost had

7:46

another disaster in Yemen where we

7:47

almost had another 22 Navy SEALs died

7:50

and it just cannot not go on any longer

7:52

I say again Imran Awan is still

7:55

contracting with Debbie

7:57

wasserman-schultz through Pakistan still

7:59

no investigation still we can't even if

8:01

this is like radical Islamic terrorism

8:02

we can't say the word you can't seem to

8:05

say the word please to say the word
