Satanic Pedophile Cabal's Iron Grip of Evil

Note: This article is based on police investigatory reports... personal documented testimony of enraged policemen and women. The story itself has major credibility; and the facts presented here have been corroborated by hundreds of investigators, and private in the USA, UK and other nations.

Australian 60 Minutes published a story that 60 Minutes (America) would never dare touch. In America and the UK, the Pedophile Network controls high ranking Pedophile politicians, the Major Mass Media, FBI, the CIA and top Law Enforcement.

Those editors of the major mass media and elected or appointed officials that are not part of it or compromised by it realize that to try and expose it results in an immediate loss of their job, their retirement, and they will be blacklisted and perhaps even have their lives threatened.

This has made it almost impossible to get the truth out to the populace about the presence and penetration of this world-wide Satanic Pedophile Network.

Notwithstanding all these strong suppression forces in the past, not only was the CIA's Franklin Credit Union pedophile scandal exposed by the Washington Times, but the finders scandal was exposed by US News and World Report.

And, despite those highly public exposures, the Major Mass Media failed to promote those important stories; and the stories died out, with no corrective actions by federal LE, which we now know is dirty to the core, because its own leaders are fully compromised by this Pedophile Network.
