*The founder and promoter of International Surrealism Now is now planning for the next phase of Surrealism Now exhibitions in Portugal in the center region. There are already several spaces for the end of 2017 and 2018.*

The Times Square pieces are part of the International Surrealism Now group exhibit, an ongoing project that Ribeiro began in 2010 to showcase the work of surrealist artists from all over the world. He conceived the International Surrealism Now movement in Coimbra with a major exhibit organized by Bissaya Barreto.

As Ribeiro continues planning the project's next phase, he is testing innovative exhibition spaces such as Times Square. His ambition for Winter 2018 is to launch the largest world exhibition of contemporary Surrealism art in Europe. The initial exhibit of paintings, drawings, digital art, photographs and sculpture -- with more than 100 artists from 48 countries participating -- is expected to be shown at several museums, monuments and public spaces throughout Portugal.
