

# Why Your Bottom Line Needs the Best Solar Panels and What's the value of Your Panels' Wattage?

Picking the right solar panels is extremely perplexing work for many homeowners. You may find a great deal of solar sales and installation firms convincing you that solar could help you save money. If you select solar, you need to be committed to it that's why you should not only highly think about the savings you can attain but also the product you will acquire from these firms.

While the best solar panels can assist you achieve greater monthly savings and more durable system, you mustn't be the one covering its maintenance but the solar company. This [article](#) from [Cleaner NRG](#) will tell you about 3 substantial considerations when searching for top solar panels out there.

The panel's production is the very first important thing to consider. The size of a single solar panel is just about 3 by feet. One panel can generate 250 - 360 watts of electricity. When looking at production it's essential to note that each 1 watt = 1,000 kw. Watts and kw are units of power which are either generated or consumed by a certain device. Meanwhile, Wh (watt-hours) or kWH (kilowatt-hours) is the amount of electrical power being consumed or created over a particular time period.

The wattage that each and every solar panel has is a really significant factor that will show you the number of actual panels you need for your wanted production. For example, a house owner would need to set up 20 250-watt panels or 16 300-watt panels for his system if his Solar Advisor suggested that his home would need a 5kw (kilowatt) system. The latter option can provide the same production as the previous choice but it is less space-demanding, thus allowing you to add more panels in the future.

When searching for the best solar panels for your house in addition to solar panel wattage other crucial components which will impact your bottom line are aspects like the efficiency of the solar panels themselves. To learn more you can check out this [article](#) by [Cleaner NRG](#).
