

Buy Gopro Selfie Stick Online To Capture Images At Different Angles

Taking selfies is the latest craze where you can capture a self image with your smart phone and instantly upload it online for your friends or family to view. However, taking a picture with a smartphone does restrict the angles and distance from where you can take the picture. Moreover, a group photo is not possible as the mobile cannot cover anyone from the hand distance and hence someone has to miss out to take the picture from a distance. But to offer more flexibility in taking your self profile pictures the market is now flooded with the selfie sticks. You can just fix the phone at one end of the selfie sticks and all you need to do is just click the Bluetooth enabled button on the other end of the stick to take your picture. It is quite simple and there is also no need to set the timer to take your picture or ask a stranger in the street to click a picture for you.

There are many brands offering these selfie sticks as you can find a bluetooth selfie stick, iPhone selfie stick, [gopro selfie stick](#) and many more that you can check out compatible with your phone model. The Bluetooth selfie stick comes with a Bluetooth remote control to click the pictures and the stick is available in different attractive colors that is extendable to capture your images in different angles and length. This selfie stick comes with 180 degrees rotatable adapter, anti-slip rubber grip, 20 to 110 cm extendable length, 1/4 inches thread size screws and more over super light and portable to carry around and fix the mobile as and when you wish to capture some beautiful shots in the mobile.

The gopro selfie stick or the **iPhone selfie stick** also come with the same features enabling you to take wonderful pictures with friends and family along with great backgrounds that can be covered using the monopod selfie stick. Generally, the Bluetooth selfie stick or the iPhone selfie stick package comes with a selfie stick, Bluetooth remote control and adjustable phone camera holder costing you around \$27.95 that is quite affordable to take the pictures from different angles.

All you need to shop for these wonderful selfie sticks is to just check out for a reliable store offering the monopod selfie stick in reasonable price and good quality to buy one online.
