

DARK RAINBOW

No one knows what will happen with this version

- You can cross a forest for hours and find only a lonely deer. Then find three 3 Daywalkers while going back home.
- You can find a lonely imperial sentinel near a hill. Then after few minutes find a pack of 10 archers fighting a bandits' crew.
- This version is a mix between the danger of Golden Age/Dark Age and the immersion of Rainbow Mode.

Use this version if you don't want to know what there is behind the corner. But beware, you could find a chicken....or a Bandit Warchief!
