

DARK AGE

This version is pure chaos, you will find the hell outside cities

- All the spawn points generate enemies. This means certain encounters every time.
- At high levels, you will find up to 20 enemies together.
- Low level player will have high chances to find high level enemies.
- This version could, of course, break some quests, due to the huge amount of dangerous enemies around the NPCs locations.

Use this version if you want a pure challenge everytime you play Skyrim. But beware, Dark Age is not for everyone!
