

## High Roller Casinos Guide

# Meet the Latest Casinos Guide for High Rollers with Software Providers and Bonuses Overview

High Roller is usually a term associated with gambling, it characterizes a large player capable of acting with the incredibly high stakes and make huge bets. Participants of this type can be found in every casino both online and offline. They usually know their price and possibilities therefore the risk to lose their state is quite small. Such people is a real treasure for online houses and so each respective establishment does its best to meet the needs of quite demanding ones. Because of gamblers preferences special High Roller Casinos were found. They provide visitors with the best VIP services including bonuses for account charging, special programs, return of the money and other benefits. At our site [AllHighRollerCasinos.com](https://AllHighRollerCasinos.com) you may discover the list of the top representatives of their kind.

## Top Software Providers

In order to offer the good services all the companies do their best to match quality with suggested products. Money is not the only tool that defines the position of gambling house among others. It is also fresh ideas, feedback openness, requirements and players demands meeting. Due to excellent developer work, gambling houses extend their business and attract more clients.

Even though there are many software providers for this kind of entertainment, here we managed to collect the best platforms in order not to get lost in this jungle. Among those are Microgaming which remains the choice of players since 20th century, Playtech that offers games with real dealer, NetEnt closes the top three leaders of this kind. Others are Vegas Technology, RTG, 888, Topgame, etc.

## **Banking Methods**

Unfortunately, VIP players face with one problem - the charging of account. The methods of putting cash are the same as in other online casinos, however the sum is different. Such establishments have their limits which are usually \$ 500- \$ 600 per day from a card and \$ 500 - \$ 10 thousand from electronic purses. Nonetheless, there are still a few methods to avoid this problem. Firstly, one can keep charging your account from electronic money, though the risk to lose more money for commission is present. Secondly, it is possible to inquiry for the raise of deposit limit from card by writing to the clients support. And thirdly, one can accomplish bank deposit which does not have any limits.

In any case, the issue may be solved personally with support team who does their best to please the needs of a visitor. The same goes for output – one can find the most convenient way to get reward either via electronic money or bank wire or card.

## **Promotions and Bonus Policy**

Currently, most gambling houses offer bonuses for subscription for its new customers along with various other gifts and promotions. Generally, they include all the typical rewards available in other online houses except for the amount of prize which is significantly bigger due to the higher input.

High roller bonus, in its essence is a regular deposit one of increased size, which is given to casino players who wish to make a deposit of large size. The amount of such bonuses can reach up to \$ 10,000 or more.

## **Rewards Available for VIP Players**

Once you decide to play for a huge worth of money and put high stakes, be sure that it will not become unnoticed by casino and you might get a chance to get VIP status. Afterwards, the game will be on the highest class, and you will literally feel like a star. If you choose gambling establishment of such type, you will be able to receive exclusive vouchers, invitations and much more, especially if you choose a casino from among the partners of large land-based casinos.

# **Live Casinos**

Live casino allows one to interact with a real dealer and recall the atmosphere of the establishment. The whole game play: roulette rotation of the drum, throws of the ball, and the distribution of cards take place in real time. These houses have specially equipped rooms with gaming tables and croupiers and many webcams with live video broadcasts allowing player to observe the process of games at once. One can control all the cameras and move around to choose the most right place for you. Sensors transmit data to the server, and in accordance with current rules and situations handled by special software to calculate one's winnings.
