

Troubleshooting Microsoft Windows Issue with Calculator App

Windows provides its users with various inbuilt applications to provide us the best help in the smooth usage of the Operating System. Among the application to help us to work properly, the calculator app is available there. This app helps us to solve the mathematical calculation. And with this, we can easily get the calculations.

This Windows application saves the time to calculate using pen and paper. But what if sometimes your Windows calculator app doesn't work due to certain reason. The time, while you want to calculate the mathematical problem, will irritate you a lot.

This issue happened with me as well as I was not able to use the calculator app on my Windows PC. Due to the issue, I tried to search some real-time solution to get the hindrance resolved. But I didn't get any right way to solve the hindrance. And due to this, I had to suffer a lot with the issue.

But while searching for the solution using the online medium I was able to solve the hindrance using the right way. I used [Windows Microsoft support](#) to get the calculator issue resolved. This way provided me the right solution.

There were other ways as well, which can be used by you as per your desire and convenience. I used Windows web chat help to the solution. The solution from the web chat was provided by the technical expert. I used the steps provided by him to solve the glitch. You can use Windows other option as well to get the right support from the web page. For the other official support, you can use the [Microsoft Windows tech support phone number](#), which

will help you to find the right way to solve the issue instantly. The support official will provide you the right guidance to get the support steps.

If you have the scarcity of time to search the support using the official website, then you can use <https://support.microsoft.com> which will provide you the direct link to get the right support with just a single click. This way will provide you the right way to reach the official website instantly.

Hence, using these ways will provide you the assistance to get the support using the official website to solve the Windows calculator app issue.
