[28/07/16 04.25.31] : I need you!

Kid starts beginning me for cash so he can card; this kid is legitimately so fucking autistic it's unreal. He can't follow simple fucking guidelines and has to be babysitted on how to click a button, even though you babysit the kid, he still decides to fuck up and lose \$12.

For your own good; don't bother dealing with this mongoloid. He is brain-fucking-dead.
