"I have my life back. Freedom of thought, freedom of movement, freedom from pain"

Thanks to Melanie from UK for this great [#CCWS](#) Candida Cleanser treatment review: I had repeated [#antibiotics](#) from a baby for chest & ear nose & throat infections. My first memory is of having meds, my mum & probably my dad had candida infections before I was

conceived & I'm 52 ?.

I was into stage 4 of the 5 stages of Candida & now on day 17 of my second back to back cleanse. I have my life back. Freedom of thought, freedom of movement, freedom from [#pain](#) except for windows of time when deeper clearing is happening in areas with long standing issues, but they don't last long ... My memory is returning, my libido is returning, I feel vibrant and alive & excited, it is blissful to luxuriate in your own body.

The CCWS is my saviour. For years I used [#Probiotics](#), [#bentonite](#) clay, D-mannose (for the uti's) , colloidal silver & lots of dietary supplements, but the [#CCWS](#) is the missing link together with a pretty strict attitude towards the [#GAPS](#) diet.

I choose life, and quality of life over addiction to [#sugar](#) & starch driven by the invasion of Candida in my body. It's tough and I'm sure there will be times of almost unbearable temptation to lapse, but the payback is indescribable.

"Huge Improvement In My Energy Levels With Much Less Brain Fog"

Thanks to Annette from USA for this great [#CCWS](#) Candida Cleanser treatment review:

I am half way through the candida cleanse with the CCWS and am already noticing a huge improvement in my energy levels, with much less brain fog. I wake up feeling more rested. My [#candida](#) had gotten so bad I would sometimes start shaking and having trouble breathing, it made it frightened to leave the house. I haven't had any of that shaking since I started taking CCWS, and the trouble breathing is slightly reduced. I have more confidence to get out more now knowing that shaking will not happen. I took this product because I was desperate, my candida was dangerously high and out of control, nothing seemed to work. I am feeling very optimistic about how this product is working. It is definitely worth a try! I recommend people with high levels of candida get the full package with the [#Zeoco](#) charcoal and [#probiotic](#), they have been very helpful helping my body handle the [#detox](#). Thank you so much for this product!
