

## Halo 4, 343 Industries is taking Halo and burying it serious inside the floor

Halo has been at the prime of the gaming industry for more than 10 years now. Folks may hate the game or choose one of the other several First-Person Shooters over Halo, however they cannot run away from the truth that the Halo industry is large. Over \$4 billion has been accrued towards the Halo name. A even though back a company was developed from Microsoft known as [343 Industries](#) (named soon after 343 guilty spark from the original Halo). This company took more than the Halo franchise and is now in manage of almost everything Halo.

The release of Halo four is a massive point for the gaming industry. The role of Master Chief has been out of our grasp for over five years now. 343 has decided to begin more than with a new series for John - Spartan 117. Thrown into a new globe, John uncovers an ancient race of super beings, the forefathers of the universe. In this series we'll see a new side of the green fighting machine. He's pitted against a vast army or enemies with only Cortona, a flourescent blue naked hologram of the female medical professional she was designed just after, to help him. Within this series John will grow to be far more human than ever just before, as Cortona enters into rampancy - the stage of an AI's life exactly where it thinks itself to death.

The multiplayer side of Halo four will be a new thing completely. This side of the game might be completely revamped, and what you believed you knew about Halo multiplayer might be changed forever.

Along with the normal multiplayer 343 is introducing what they get in touch with "Spartan Ops". If you ever played Contemporary Warfare 2 it will likely be very related to their "Special Ops". You will undergo a series of missions developed by 343. Their are some extremely specific and new factors about this game mode. It's proving to be a extremely intruiging aspect of the new game.

Halo has been a single of the greatest franchises of all time, only combated by the recent Get in touch with of Duty and Contemporary Warfare franchises. As far as I can tell this Halo is going to be a fantastic campaign game but what 343 is doing for the multiplayer can't be forgiven. For those people that really like Contact of Duty and Contemporary Warfare, you will like this game, inside explanation. For those which might be

die tough Halo ([Halo 5: Guardians](#)) fans, you will probably be disappointed inside the route that 343 is taking with this game.
