

Kybella Injections in Newport Beach, CA

[Kybella injections](#) are a non-surgical treatment designed to reduce fat beneath the chin, providing a more contoured profile. By breaking down and absorbing fat cells, Kybella helps achieve a slimmer, youthful appearance. At **Rejuva**, experienced professionals administer these injections, offering a safe and effective solution for double chin reduction. For more information, you can call us at **+1 (949) 760-8065**.
