Hotfixes
Installed
5/22/2015 Definition Update for Windows Defender - KB915597 (Definition 1.199.464.0)
Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

5/21/2015 Definition Update for Microsoft Security Essentials - KB2310138 (Definition 1.199.406.0)

Install this update to revise the definition files that are used to detect viruses, spyware, and other potentially unwanted software. Once you have installed this item, it cannot be removed.

5/19/2015 Definition Update for Microsoft Security Essentials - KB2310138 (Definition 1.199.126.0)

Install this update to revise the definition files that are used to detect viruses, spyware, and other potentially unwanted software. Once you have installed this item, it cannot be removed.

5/19/2015 Microsoft Security Essentials - 4.8.204.0 (KB3063822)

You may not be running an anti-malware solution and this may leave your PC vulnerable to viruses, spyware and other malicious software. Microsoft Security Essentials is a free anti-malware software offered to Windows users who have purchased a Genuine copy of Windows. Microsoft Security Essentials is licensed for use on home PCs and by small businesses with 10 or fewer PCs.

You can download alternative languages directly from www.microsoft.com/security_essentials with the "more information" link below.

5/19/2015 Update for Windows 7 for x64-based Systems (KB3035583)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information.

After you install this item, you may have to restart your computer.

5/19/2015 Update for Windows 7 for x64-based Systems (KB3054476)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information.

After you install this item, you may have to restart your computer.

5/19/2015 Microsoft Security Essentials - (KB2902907)

You may not be running an anti-malware solution and this may leave your PC vulnerable to viruses, spyware and other malicious software. Microsoft Security Essentials is a free anti-malware software offered to Windows users who have purchased a Genuine copy of Windows. Microsoft Security Essentials is licensed for use on home PCs and by small businesses with 10 or fewer PCs.

You can download alternative languages directly from www.microsoft.com/security_essentials with the "more information" link below.

5/19/2015 Update for Microsoft Visual Studio 2010 Tools for Office Runtime (KB2961149)

For Visual Studio Tools for Office add-ins that make use of the Windows Presentation Foundation (WPF), customers using touch-enabled devices experienced a 15-20 second lag when closing Office applications. Additionally, for developers using SHA256 code-signing certificates, the installation Trust Prompt would erroneously display “Unknown Publisher” even when the publisher was fully trusted. This update addresses both of these issues.

5/19/2015 Update for Microsoft Visual Studio 2010 Tools for Office Runtime (KB3001652)

This update rollup for Visual Studio Tools for Office fixes a number of top customer issues for the Runtime. In particular, it addresses a premature shutdown of Windows Presentation Foundation (WPF) for certain add-in configurations, as well as slow Office shutdown for add-ins using WPF on touch-enabled devices. The update also includes fixes from the previous update rollup, KB #2796590

5/19/2015 Definition Update for Windows Defender - KB915597 (Definition 1.199.48.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

5/18/2015 Update for Microsoft Visual Studio 2010 Service Pack 1 (KB2635973)

This update will address a crash in localized versions of Visual Studio 2010 SP1 that may occur when opening a Visual Studio Solution. This crash occurs in Microsoft.VisualStudio.Design.dll's VSTypeResolutionService.get_References.

5/18/2015 Microsoft Visual Studio 2010 Service Pack 1

This download installs Visual Studio 2010 Service Pack 1 (SP1). This service pack release addresses issues that were found through a combination of customer and partner feedback, as well as internal testing. These service packs offer Visual Studio users improvements in responsiveness and stability, as well as completes some high-impact scenarios requested by customers.

5/18/2015 Security Update for Microsoft Visual Studio 2010 XML Editor (KB2251489)

A security issue has been identified leading to an XXE (Xml eXternal Entity) vulnerability. You can protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.

5/15/2015 Definition Update for Windows Defender - KB915597 (Definition 1.197.2571.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have

installed this item, it cannot be removed.

5/13/2015 Security Update for Windows 7 for x64-based Systems (KB3061518)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

5/13/2015 Cumulative Security Update for Internet Explorer 11 for Windows 7 for x64-based Systems (KB3049563)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

5/13/2015 Security Update for Windows 7 for x64-based Systems (KB3055642)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

5/13/2015 Update for Windows 7 for x64-based Systems (KB3022345)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

5/13/2015 Security Update for Windows 7 for x64-based Systems (KB3045171)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

5/13/2015 Security Update for Windows 7 for x64-based Systems (KB3051768)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete

listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

5/13/2015 Security Update for Windows 7 for x64-based Systems (KB3046002)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

5/13/2015 Update for Windows 7 for x64-based Systems (KB3020369)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

5/13/2015 Security Update for Skype for Business 2015 (KB3039779) 64-Bit Edition

A security vulnerability exists in Skype for Business 2015 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

5/13/2015 Update for Windows 7 for x64-based Systems (KB3045645)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

5/13/2015 Update for Microsoft OneDrive for Business (KB2986244) 64-Bit Edition

Microsoft has released an update for Microsoft OneDrive for Business 64-Bit Edition. This update provides the latest fixes to Microsoft OneDrive for Business 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Update for Microsoft Outlook Social Connector 2013 (KB3039711) 64-Bit Edition

Microsoft has released an update for Microsoft Outlook Social Connector 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Outlook Social Connector 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Security Update for Microsoft PowerPoint 2013 (KB2975816) 64-Bit Edition

A security vulnerability exists in Microsoft PowerPoint 2013 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that

vulnerability.

5/13/2015 Definition Update for Microsoft Office 2013 (KB2986209) 64-Bit Edition

This update provides the latest junk email and malicious links filter definitions for Microsoft Office 2013 64-Bit Edition.

5/13/2015 Security Update for Microsoft Word 2013 (KB2965307) 64-Bit Edition

A security vulnerability exists in Microsoft Word 2013 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

5/13/2015 Update for Microsoft Office 2013 (KB2986171) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Update for Microsoft Office 2013 (KB3054782) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Update for Microsoft Office 2013 (KB2956164) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Security Update for Microsoft Excel 2013 (KB2986216) 64-Bit Edition

A security vulnerability exists in Microsoft Excel 2013 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

5/13/2015 Windows Malicious Software Removal Tool x64 - May 2015 (KB890830)

After the download, this tool runs one time to check your computer for infection by specific, prevalent malicious software (including Blaster, Sasser, and Mydoom) and helps remove any infection that is found. If an infection is found, the tool will display a status report the next time that you start your computer. A new version of the tool will be offered every month. If you want to manually run the tool on your computer, you can download a copy from the Microsoft Download Center, or you can run an online version from microsoft.com. This tool is not a replacement for an antivirus product. To help protect your computer, you should use an antivirus product.

5/13/2015 Update for Microsoft Office 2013 (KB2965269) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Update for Microsoft Outlook 2013 (KB3039799) 64-Bit Edition

Microsoft has released an update for Microsoft Outlook 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Outlook 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Update for Microsoft Office 2013 (KB2975869) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Security Update for Microsoft .NET Framework 3.5.1 on Windows 7 and Windows Server 2008 R2 SP1 for x64-based Systems (KB3032655)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

5/13/2015 Update for Microsoft Office 2013 (KB2881076) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Security Update for Microsoft .NET Framework 3.5.1 on Windows 7 and Windows Server 2008 R2 SP1 for x64-based Systems (KB3023215)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

5/13/2015 Update for Microsoft Office 2013 (KB2881017) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office

2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Update for Microsoft Office 2013 (KB2956152) 64-Bit Edition
Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Update for Microsoft Office 2013 (KB2965277) 64-Bit Edition
Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Security Update for Microsoft .NET Framework 3.5.1 on Windows 7 and Windows Server 2008 R2 SP1 for x64-based Systems (KB3048070)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

5/13/2015 Update for Microsoft Office 2013 (KB2965271) 64-Bit Edition
Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Security Update for Microsoft Silverlight (KB3056819)
This security update to Silverlight includes fixes outlined in KB 3056819. This update is backward compatible with web applications built using previous versions of Silverlight.

5/13/2015 Update for Microsoft Office 2013 (KB2965259) 64-Bit Edition
Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Update for Microsoft OneNote 2013 (KB2975901) 64-Bit Edition
Microsoft has released an update for Microsoft OneNote 2013 64-Bit Edition. This update provides the latest fixes to Microsoft OneNote 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Security Update for Microsoft Office 2013 (KB2975808) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2013 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

5/13/2015 Update for Microsoft Project 2013 (KB2986246) 64-Bit Edition

Microsoft has released an update for Microsoft Project 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Project 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Update for Microsoft Office 2013 (KB2965253) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/13/2015 Update for Microsoft Office 2013 (KB2986156) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

5/12/2015 Definition Update for Windows Defender - KB915597 (Definition 1.197.2184.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

5/8/2015 Definition Update for Windows Defender - KB915597 (Definition 1.197.1860.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

5/6/2015 Definition Update for Windows Defender - KB915597 (Definition 1.197.1467.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

5/1/2015 Definition Update for Windows Defender - KB915597 (Definition 1.197.1168.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

4/28/2015 Definition Update for Windows Defender - KB915597 (Definition 1.197.802.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

4/25/2015 Update for Microsoft Lync 2013 (KB2889923) 64-Bit Edition

Microsoft has released an update for Microsoft Lync 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Lync 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Update for Microsoft Office 2013 (KB2825678) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Update for Microsoft OneDrive for Business (KB2956185) 64-Bit Edition

Microsoft has released an update for Microsoft OneDrive for Business 64-Bit Edition. This update provides the latest fixes to Microsoft OneDrive for Business 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Update for Microsoft Excel 2013 (KB2965275) 64-Bit Edition

Microsoft has released an update for Microsoft Excel 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Excel 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Update for Microsoft Office 2013 (KB2880487) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Update for Microsoft Access 2013 (KB2965276) 64-Bit Edition

Microsoft has released an update for Microsoft Access 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Access 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Update for Microsoft Outlook Social Connector 2013 (KB2965257) 64-Bit Edition

Microsoft has released an update for Microsoft Outlook Social Connector 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Outlook Social Connector 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Update for Microsoft Office 2013 (KB2965255) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office

2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Security Update for Microsoft Word 2013 (KB2965224) 64-Bit Edition

A security vulnerability exists in Microsoft Word 2013 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

4/24/2015 Update for Microsoft Outlook 2013 (KB2965270) 64-Bit Edition

Microsoft has released an update for Microsoft Outlook 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Outlook 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Update for Microsoft Office 2013 (KB2965267) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Update for Microsoft OneNote 2013 (KB2965264) 64-Bit Edition

Microsoft has released an update for Microsoft OneNote 2013 64-Bit Edition. This update provides the latest fixes to Microsoft OneNote 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Update for Microsoft PowerPoint 2013 (KB2965256) 64-Bit Edition

Microsoft has released an update for Microsoft PowerPoint 2013 64-Bit Edition. This update provides the latest fixes to Microsoft PowerPoint 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Update for Microsoft Office 2013 (KB2965262) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Update for Microsoft Project 2013 (KB2965279) 64-Bit Edition

Microsoft has released an update for Microsoft Project 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Project 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Update for Microsoft Office 2013 (KB2965268) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office

2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/24/2015 Definition Update for Windows Defender - KB915597 (Definition 1.197.474.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

4/23/2015 Service Pack 1 for Microsoft Office 2013 (KB2850036) 64-Bit Edition

Service Pack 1 for Microsoft Office 2013 64-Bit Edition contains new updates which improve security, performance, and stability. Additionally, the SP is a roll-up of all previously released updates.

4/23/2015 Update for Microsoft Visio 2013 (KB2817306) 64-Bit Edition

Microsoft has released an update for Microsoft Visio 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Visio 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/21/2015 Definition Update for Windows Defender - KB915597 (Definition 1.197.56.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

4/18/2015 Update for Microsoft Office 2013 (KB2817316) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/18/2015 Update for Microsoft Excel 2013 (KB2956145) 64-Bit Edition

Microsoft has released an update for Microsoft Excel 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Excel 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/18/2015 Update for Microsoft OneNote 2013 (KB2956165) 64-Bit Edition

Microsoft has released an update for Microsoft OneNote 2013 64-Bit Edition. This update provides the latest fixes to Microsoft OneNote 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2760544) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability

and performance improvements.

4/17/2015 Update for Microsoft Access 2013 (KB2956176) 64-Bit Edition

Microsoft has released an update for Microsoft Access 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Access 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2880478) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Project 2013 (KB2956187) 64-Bit Edition

Microsoft has released an update for Microsoft Project 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Project 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2956169) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft OneDrive for Business (KB2920746) 64-Bit Edition

Microsoft has released an update for Microsoft OneDrive for Business 64-Bit Edition. This update provides the latest fixes to Microsoft OneDrive for Business 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2956160) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2881001) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2760249) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office

2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Security Update for Microsoft Office 2013 (KB2768005) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2013 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

4/17/2015 Update for Microsoft Office 2013 (KB2899498) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Security Update for Microsoft Word 2013 (KB2956163) 64-Bit Edition

A security vulnerability exists in Microsoft Word 2013 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

4/17/2015 Security Update for Microsoft Office 2013 (KB2956151) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2013 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

4/17/2015 Definition Update for Windows Defender - KB915597 (Definition 1.195.3573.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

4/17/2015 Update for Microsoft SkyDrive Pro (KB2837652) 64-Bit Edition

Microsoft has released an update for Microsoft SkyDrive Pro 64-Bit Edition. This update provides the latest fixes to Microsoft SkyDrive Pro 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Lync 2013 (KB2956174) 64-Bit Edition

Microsoft has released an update for Microsoft Lync 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Lync 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2920769) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2956154) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2837654) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2956177) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2956148) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Publisher 2013 (KB2883048) 64-Bit Edition

Microsoft has released an update for Microsoft Publisher 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Publisher 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Security Update for Microsoft Office 2013 (KB2910941) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2013 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

4/17/2015 Update for Microsoft Outlook Social Connector 2013 (KB2737996) 64-Bit Edition

Microsoft has released an update for Microsoft Outlook Social Connector 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Outlook Social Connector 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2760344) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2899522) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2956168) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Security Update for Microsoft Excel 2013 (KB2920753) 64-Bit Edition

A security vulnerability exists in Microsoft Excel 2013 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

4/17/2015 Update for Skype for Business 2015 (KB2889853) 64-Bit Edition

Microsoft has released an update for Skype for Business 2015 64-Bit Edition. This update provides the latest fixes to Skype for Business 2015 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2881035) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Outlook 2013 (KB2956170) 64-Bit Edition

Microsoft has released an update for Microsoft Outlook 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Outlook 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2768012) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft PowerPoint 2013 (KB2965206) 64-Bit Edition

Microsoft has released an update for Microsoft PowerPoint 2013 64-Bit Edition. This update provides the latest fixes to Microsoft PowerPoint 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2920754) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Security Update for Microsoft Lync 2013 (KB2881013) 64-Bit Edition

A security vulnerability exists in Microsoft Lync 2013 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

4/17/2015 Update for Microsoft Office 2013 (KB2880977) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Word 2013 (KB2878319) 64-Bit Edition

Microsoft has released an update for Microsoft Word 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Word 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2956171) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2760371) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2863843) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2883036) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2883095) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2760610) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2726996) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Update for Microsoft Office 2013 (KB2956167) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/17/2015 Security Update for Microsoft Office 2013 (KB2880463) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2013 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

4/17/2015 Definition Update for Microsoft Office 2013 (KB2965273) 64-Bit Edition

This update provides the latest junk email and malicious links filter definitions for Microsoft Office 2013 64-Bit Edition.

4/17/2015 Update for Microsoft Visio Viewer 2013 (KB2817301) 64-Bit Edition

Microsoft has released an update for Microsoft Visio Viewer 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Visio Viewer 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/15/2015 Update for Windows 7 for x64-based Systems (KB2990214)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information.

After you install this item, you may have to restart your computer.

4/15/2015 Intel - Other hardware - Intel(R) Management Engine Interface

Intel Other hardware software update released in July, 2012

4/15/2015 Security Update for Windows 7 for x64-based Systems (KB3046269)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

4/15/2015 Update for Windows 7 for x64-based Systems (KB2952664)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

4/15/2015 Security Update for Windows 7 for x64-based Systems (KB3046306)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

4/15/2015 Windows Malicious Software Removal Tool x64 - April 2015 (KB890830)

After the download, this tool runs one time to check your computer for infection by specific, prevalent malicious software (including Blaster, Sasser, and Mydoom) and helps remove any infection that is found. If an infection is found, the tool will display a status report the next time that you start your computer. A new version of the tool will be offered every month. If you want to manually run the tool on your computer, you can download a copy from the Microsoft Download Center, or you can run an online version from microsoft.com. This tool is not a replacement for an antivirus product. To help protect your computer, you should use an antivirus product.

4/15/2015 Security Update for Windows 7 for x64-based Systems (KB3046482)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

4/15/2015 Security Update for Windows 7 for x64-based Systems (KB3045999)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

4/15/2015 Security Update for Windows 7 for x64-based Systems (KB3042553)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

4/15/2015 Security Update for Microsoft .NET Framework 3.5.1 on Windows 7 and Windows Server 2008 R2 SP1 for x64-based Systems (KB3037574)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

4/15/2015 Cumulative Security Update for Internet Explorer 11 for Windows 7 for x64-based Systems (KB3038314)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

4/15/2015 Security Update for Windows 7 for x64-based Systems (KB3045685)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

4/14/2015 Definition Update for Windows Defender - KB915597 (Definition 1.195.3225.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have

installed this item, it cannot be removed.

4/7/2015 Definition Update for Windows Defender - KB915597 (Definition 1.195.2186.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

4/4/2015 Update for Windows 7 for x64-based Systems (KB3035583)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information.

After you install this item, you may have to restart your computer.

4/3/2015 Definition Update for Windows Defender - KB915597 (Definition 1.195.1574.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

3/31/2015 Definition Update for Windows Defender - KB915597 (Definition 1.195.1024.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

3/27/2015 Definition Update for Windows Defender - KB915597 (Definition 1.195.475.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

3/25/2015 Update for Windows 7 for x64-based Systems (KB2952664)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information.

After you install this item, you may have to restart your computer.

3/24/2015 Definition Update for Windows Defender - KB915597 (Definition 1.195.84.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

3/20/2015 Definition Update for Windows Defender - KB915597 (Definition 1.193.3223.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

3/17/2015 Definition Update for Windows Defender - KB915597 (Definition 1.193.2869.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

3/13/2015 Definition Update for Windows Defender - KB915597 (Definition 1.193.2482.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

3/10/2015 Security Update for Windows 7 for x64-based Systems (KB3032323)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

3/10/2015 Security Update for Windows 7 for x64-based Systems (KB3033929)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

3/10/2015 Definition Update for Microsoft Office 2010 (KB2956207) 64-Bit Edition

This update provides the latest junk email and malicious links filter definitions for Microsoft Office 2010 64-Bit Edition.

3/10/2015 Security Update for Windows 7 for x64-based Systems (KB3036493)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

3/10/2015 Security Update for Windows 7 for x64-based Systems (KB3035131)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

3/10/2015 Security Update for Windows 7 for x64-based Systems (KB3030377)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete

listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

3/10/2015 Security Update for Microsoft Office 2010 (KB2889839) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/10/2015 Security Update for Windows 7 for x64-based Systems (KB3039066)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

3/10/2015 Update for Microsoft Office 2010 (KB2956141) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/10/2015 Update for Microsoft OneNote 2010 (KB2956205) 64-Bit Edition

Microsoft has released an update for Microsoft OneNote 2010 64-Bit Edition. This update provides the latest fixes to Microsoft OneNote 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/10/2015 Security Update for Microsoft Excel 2010 (KB2956142) 64-Bit Edition

A security vulnerability exists in Microsoft Excel 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/10/2015 Security Update for Windows 7 for x64-based Systems (KB3046049)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

3/10/2015 Security Update for Microsoft Word 2010 (KB2956139) 64-Bit Edition

A security vulnerability exists in Microsoft Word 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/10/2015 Update for Microsoft Office 2010 (KB2920813) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/10/2015 Security Update for Microsoft Office 2010 (KB2956076) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/10/2015 Security Update for Windows 7 for x64-based Systems (KB3033889)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

3/10/2015 Security Update for Microsoft Office 2010 (KB2883100) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/10/2015 Security Update for Windows 7 for x64-based Systems (KB3035132)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

3/10/2015 Security Update for Microsoft PowerPoint 2010 (KB2920812) 64-Bit Edition

A security vulnerability exists in Microsoft PowerPoint 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/10/2015 Security Update for Windows 7 for x64-based Systems (KB3034344)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

3/10/2015 Cumulative Security Update for Internet Explorer 11 for Windows 7 for x64-based Systems (KB3032359)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

3/10/2015 Security Update for Windows 7 for x64-based Systems (KB3035126)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

3/10/2015 Definition Update for Windows Defender - KB915597 (Definition 1.193.2151.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

3/8/2015 Windows Malicious Software Removal Tool x64 - March 2015 (KB890830)

After the download, this tool runs one time to check your computer for infection by specific, prevalent malicious software (including Blaster, Sasser, and Mydoom) and helps remove any infection that is found. If an infection is found, the tool will display a status report the next time that you start your computer. A new version of the tool will be offered every month. If you want to manually run the tool on your computer, you can download a copy from the Microsoft Download Center, or you can run an online version from microsoft.com. This tool is not a replacement for an antivirus product. To help protect your computer, you should use an antivirus product.

3/6/2015 Definition Update for Windows Defender - KB915597 (Definition 1.193.1828.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

3/3/2015 SAMSUNG Electronics Co., Ltd. - Other hardware - SAMSUNG Mobile MTP Device
SAMSUNG Electronics Co., Ltd. Other hardware software update
released in May, 2012

3/3/2015 Definition Update for Windows Defender - KB915597 (Definition 1.193.1509.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

3/2/2015 Update for Microsoft InfoPath 2010 (KB2817369) 64-Bit Edition

Microsoft has released an update for Microsoft InfoPath 2010 64-Bit Edition. This update provides the latest fixes to Microsoft InfoPath 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Update for Microsoft Office 2010 (KB2589352) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Security Update for Microsoft Office 2010 (KB2687423) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/2/2015 Security Update for Microsoft Office 2010 (KB2553284) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/2/2015 Security Update for Microsoft Office 2010 (KB2880971) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/2/2015 Update for Microsoft Office 2010 (KB2687275) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Update for Microsoft Office 2010 (KB2837606) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Update for Microsoft Office 2010 (KB2956054) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability

and performance improvements.

3/2/2015 Update for Microsoft OneNote 2010 (KB2956075) 64-Bit Edition

Microsoft has released an update for Microsoft OneNote 2010 64-Bit Edition. This update provides the latest fixes to Microsoft OneNote 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Security Update for Microsoft Office 2010 (KB2850016) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/2/2015 Update for Microsoft Office 2010 (KB2883019) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Security Update for Microsoft Excel 2010 (KB2956081) 64-Bit Edition

A security vulnerability exists in Microsoft Excel 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/2/2015 Update for Microsoft Office 2010 (KB2589375) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Update for Microsoft Excel 2010 (KB2589348) 64-Bit Edition

Microsoft has released an update for Microsoft Excel 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Excel 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Security Update for Microsoft Office 2010 (KB2881071) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/2/2015 Security Update for Microsoft Office 2010 (KB2553154) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/2/2015 Update for Microsoft Filter Pack 2.0 (KB2878281) 64-Bit Edition

Microsoft has released an update for Microsoft Filter Pack 2.0

64-Bit Edition. This update provides the latest fixes to Microsoft Filter Pack 2.0 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Update for Microsoft Office 2010 (KB2825635) 64-Bit Edition
Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Update for Microsoft Office 2010 (KB2794737) 64-Bit Edition
Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Security Update for Microsoft Office 2010 (KB2956073) 64-Bit Edition
A security vulnerability exists in Microsoft Office 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/2/2015 Update for Microsoft SharePoint Workspace 2010 (KB2760601) 64-Bit Edition
Microsoft has released an update for Microsoft SharePoint Workspace 2010 64-Bit Edition. This update provides the latest fixes to Microsoft SharePoint Workspace 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Update for Microsoft Office 2010 (KB2553140) 64-Bit Edition
Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Update for Microsoft Office 2010 (KB2589386) 64-Bit Edition
Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Update for Microsoft Office 2010 (KB2597087) 64-Bit Edition
Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Update for Microsoft Office 2010 (KB2589298) 64-Bit Edition
Microsoft has released an update for Microsoft Office 2010 64-Bit

Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Security Update for Microsoft Word 2010 (KB2956066) 64-Bit Edition

A security vulnerability exists in Microsoft Word 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/2/2015 Update for Microsoft Office 2010 (KB2837581) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Update for Microsoft Office 2010 (KB2837602) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Update for Microsoft PowerPoint 2010 (KB2956129) 64-Bit Edition

Microsoft has released an update for Microsoft PowerPoint 2010 64-Bit Edition. This update provides the latest fixes to Microsoft PowerPoint 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Update for Microsoft Office 2010 (KB2597089) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

3/2/2015 Security Update for Microsoft Office 2010 (KB2826035) 64-Bit Edition

A security vulnerability exists in Microsoft Office 2010 64-Bit Edition that could allow arbitrary code to run when a maliciously modified file is opened. This update resolves that vulnerability.

3/2/2015 Service Pack 2 for Microsoft Office 2010 (KB2687455) 64-Bit Edition

Service Pack 2 (SP2) for Microsoft Office 2010 64-Bit Edition contains new updates which improve security, performance, and stability. Additionally, the SP is a roll-up of all previously released updates.

2/27/2015 Definition Update for Windows Defender - KB915597 (Definition 1.193.1164.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have

installed this item, it cannot be removed.

2/24/2015 Update for Windows 7 for x64-based Systems (KB3006137)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information.

After you install this item, you may have to restart your computer.

2/24/2015 Definition Update for Windows Defender - KB915597 (Definition 1.193.804.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

2/22/2015 Update for Microsoft Office 2010 (KB2598242) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

2/22/2015 Update for Office File Validation 2010 (KB2553065), 64-bit Edition

Microsoft has released an update for Microsoft Office File Validation 2010, 64-bit Edition. This update provides the latest fixes to Microsoft Office File Validation 2010, 64-bit Edition. Additionally, this update contains stability and performance improvements.

2/22/2015 Update for Microsoft OneNote 2010 (KB2553290) 64-Bit Edition

Microsoft has released an update for Microsoft OneNote 2010 64-Bit Edition. This update provides the latest fixes to Microsoft OneNote 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

2/22/2015 Update for Microsoft Office 2010 (KB2553310) 64-Bit Edition

Microsoft has released an update for Microsoft Office 2010 64-Bit Edition. This update provides the latest fixes to Microsoft Office 2010 64-Bit Edition. Additionally, this update contains stability and performance improvements.

2/22/2015 Definition Update for Microsoft Office 2010 (KB2956079) 64-Bit Edition

This update provides the latest junk email and malicious links filter definitions for Microsoft Office 2010 64-Bit Edition.

2/22/2015 Update for Microsoft Visual Studio 2010 Tools for Office Runtime (KB3001652)

This update rollup for Visual Studio Tools for Office fixes a number of top customer issues for the Runtime. In particular, it addresses a premature shutdown of Windows Presentation Foundation (WPF) for certain add-in configurations, as well as slow Office shutdown for add-ins using WPF on touch-enabled devices. The

update also includes fixes from the previous update rollup, KB
#2796590

2/20/2015 Definition Update for Windows Defender - KB915597 (Definition 1.193.395.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

2/19/2015 Definition Update for Windows Defender - KB915597 (Definition 1.193.217.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

2/17/2015 Definition Update for Windows Defender - KB915597 (Definition 1.193.42.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

2/15/2015 Security Update for Microsoft Visual C++ 2008 Service Pack 1 Redistributable Package (KB2538243)

A security issue has been identified leading to MFC application vulnerability in DLL planting due to MFC not specifying the full path to system/localization DLLs. You can protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.

2/15/2015 Security Update for Microsoft ASP.NET MVC 4.0 (KB2993928)

A security issue (MS14-059) has been identified in a Microsoft software product that could affect your system. You can protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article.

2/15/2015 Security Update for Microsoft Visual C++ 2005 Service Pack 1 Redistributable Package (KB2538242)

A security issue has been identified leading to MFC application vulnerability in DLL planting due to MFC not specifying the full path to system/localization DLLs. You can protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.

2/14/2015 Update for Windows 7 for x64-based Systems (KB3021917)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information.

After you install this item, you may have to restart your computer.

2/14/2015 Windows Malicious Software Removal Tool x64 - February 2015 (KB890830)

After the download, this tool runs one time to check your computer for infection by specific, prevalent malicious software (including Blaster, Sasser, and Mydoom) and helps remove any infection that is found. If an infection is found, the tool will display a status report the next time that you start your computer. A new version of the tool will be offered every month. If you want to manually run the tool on your computer, you can download a copy from the Microsoft Download Center, or you can run an online version from microsoft.com. This tool is not a replacement for an antivirus product. To help protect your computer, you should use an antivirus product.

2/13/2015 Definition Update for Windows Defender - KB915597 (Definition 1.191.4816.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

2/12/2015 Security Update for Internet Explorer 11 for Windows 7 for x64-based Systems (KB3034196)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

2/11/2015 Update for Windows 7 for x64-based Systems (KB2952664)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

2/11/2015 Cumulative Security Update for Internet Explorer 11 for Windows 7 for x64-based Systems (KB3021952)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

2/11/2015 Security Update for Windows 7 for x64-based Systems (KB3029944)

A security issue has been identified in a Microsoft software

product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

2/11/2015 Security Update for Windows 7 for x64-based Systems (KB3023562)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

2/11/2015 Update for Windows 7 for x64-based Systems (KB3004394)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

2/11/2015 Update for Windows 7 for x64-based Systems (KB3020338)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

2/11/2015 Security Update for Windows 7 for x64-based Systems (KB3004375)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

2/11/2015 Security Update for Windows 7 for x64-based Systems (KB3004361)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

2/11/2015 Security Update for Windows 7 for x64-based Systems (KB3031432)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your

system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

2/11/2015 Security Update for Windows 7 for x64-based Systems (KB3013455)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

2/10/2015 Definition Update for Windows Defender - KB915597 (Definition 1.191.4500.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

2/6/2015 Definition Update for Windows Defender - KB915597 (Definition 1.191.4170.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

2/3/2015 Definition Update for Windows Defender - KB915597 (Definition 1.191.3880.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

1/30/2015 Definition Update for Windows Defender - KB915597 (Definition 1.191.3593.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

1/27/2015 Definition Update for Windows Defender - KB915597 (Definition 1.191.3347.0)

Install this update to revise the definition files used to detect spyware and other potentially unwanted software. Once you have installed this item, it cannot be removed.

1/25/2015 Update for Windows 7 for x64-based Systems (KB2923545)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

1/25/2015 Security Update for Windows 7 for x64-based Systems (KB2862966)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your

system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

1/25/2015 Update for Windows 7 for x64-based Systems (KB2798162)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

1/25/2015 Update for Windows 7 for x64-based Systems (KB2830477)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

1/25/2015 Update for Windows 7 for x64-based Systems (KB2985461)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

1/25/2015 Security Update for Windows 7 for x64-based Systems (KB2868626)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

1/25/2015 ViewSonic - Display - ViewSonic VA903 Series

ViewSonic Display software update released in September, 2006

1/25/2015 Intel - Other hardware - Intel(R) Management Engine Interface

Intel Other hardware software update released in July, 2012

1/25/2015 Update for Windows 7 for x64-based Systems (KB2893519)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

1/25/2015 Update for Windows 7 for x64-based Systems (KB2592687)

The Remote Desktop Protocol 8.0 update enables you to use the new Remote Desktop Services features. These features are introduced in Windows 8 and in Windows Server 2012 and are available for

computers that are running Windows 7 Service Pack 1 or Windows Server 2008 R2 Service Pack 1. After you install this item, you may have to restart your computer.

1/25/2015 Update for Windows 7 for x64-based Systems (KB2843630)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

1/25/2015 Security Update for Windows 7 for x64-based Systems (KB2758857)

A security issue has been identified that could allow an unauthenticated remote attacker to compromise your system and gain control over it. You can help protect your system by installing this update from Microsoft. After you install this update, you may have to restart your system.

1/25/2015 Security Update for Windows 7 for x64-based Systems (KB2918614)

A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.

1/25/2015 Update for Windows 7 for x64-based Systems (KB2732059)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

1/25/2015 Update for Windows 7 for x64-based Systems (KB2773072)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

1/25/2015 Update for User-Mode Driver Framework version 1.11 for Windows 7 for x64-based Systems (KB2685813)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.

1/25/2015 Update for Windows 7 for x64-based Systems (KB2726535)

Install this update to resolve issues in Windows. For a complete

listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information.

After you install this item, you may have to restart your computer.

1/25/2015 Update for Windows 7 for x64-based Systems (KB2868116)

Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information.

After you install this item, you may have to restart your computer.

Not Installed

5/18/2015 Update for Microsoft Visual Studio 2010 Tools for Office Runtime (KB2961149)

Installation Status Failed

For Visual Studio Tools for Office add-ins that make use of the Windows Presentation Foundation (WPF), customers using touch-enabled devices experienced a 15-20 second lag when closing Office applications.

Additionally, for developers using SHA256 code-signing certificates, the installation Trust Prompt would erroneously display "Unknown Publisher" even when the publisher was fully trusted. This update addresses both of these issues.

4/19/2015 SAMSUNG Electronics Co., Ltd. - Other hardware - SAMSUNG Mobile MTP Device

Installation Status Failed

SAMSUNG Electronics Co., Ltd. Other hardware software update released in May, 2012

4/18/2015 Update for Microsoft Visio 2013 (KB2817306) 64-Bit Edition

Installation Status Failed

Microsoft has released an update for Microsoft Visio 2013 64-Bit Edition. This update provides the latest fixes to Microsoft Visio 2013 64-Bit Edition. Additionally, this update contains stability and performance improvements.

4/18/2015 Service Pack 1 for Microsoft Office 2013 (KB2850036) 64-Bit Edition

Installation Status Canceled

Service Pack 1 for Microsoft Office 2013 64-Bit Edition contains new updates which improve security, performance, and stability.

Additionally, the SP is a roll-up of all previously released updates.

3/1/2015 Service Pack 2 for Microsoft Office 2010 (KB2687455) 64-Bit Edition

Installation Status Canceled

Service Pack 2 (SP2) for Microsoft Office 2010 64-Bit Edition contains new updates which improve security, performance, and stability. Additionally, the SP is a roll-up of all previously

released updates.

Security Options

Accounts: Administrator account status Disabled

Accounts: Guest account status Disabled

Accounts: Limit local account use of blank passwords to console logon only Enabled

Accounts: Rename administrator account Administrator

Accounts: Rename guest account Guest

Audit: Audit the access of global system objects Disabled

Audit: Audit the use of Backup and Restore privilege Disabled

Audit: Force audit policy subcategory settings (Windows Vista or later) to override audit policy category settings Not Defined

Audit: Shut down system immediately if unable to log security audits Disabled

DCOM: Machine Access Restrictions in Security Descriptor Definition Language (SDDL) syntax Not Defined

DCOM: Machine Launch Restrictions in Security Descriptor Definition Language (SDDL) syntax Not Defined

Devices: Allow undock without having to log on Enabled

Devices: Allowed to format and eject removable media Not Defined

Devices: Prevent users from installing printer drivers Disabled

Devices: Restrict CD-ROM access to locally logged-on user only Not Defined

Devices: Restrict floppy access to locally logged-on user only Not Defined

Domain controller: Allow server operators to schedule tasks Not Defined

Domain controller: LDAP server signing requirements Not Defined

Domain controller: Refuse machine account password changes Not Defined

Domain member: Digitally encrypt or sign secure channel data (always) Enabled

Domain member: Digitally encrypt secure channel data (when possible) Enabled

Domain member: Digitally sign secure channel data (when possible) Enabled

Domain member: Disable machine account password changes Disabled

Domain member: Maximum machine account password age 30 days

Domain member: Require strong (Windows 2000 or later) session key Enabled
Interactive logon: Display user information when the session is locked Not Defined
Interactive logon: Do not display last user name Disabled
Interactive logon: Do not require CTRL+ALT+DEL Not Defined
Interactive logon: Message text for users attempting to log on
Interactive logon: Message title for users attempting to log on
Interactive logon: Number of previous logons to cache (in case domain controller is not available) 10 logons
Interactive logon: Prompt user to change password before expiration 5 days
Interactive logon: Require Domain Controller authentication to unlock workstation Disabled
Interactive logon: Require smart card Disabled
Interactive logon: Smart card removal behavior No Action
Microsoft network client: Digitally sign communications (always) Disabled
Microsoft network client: Digitally sign communications (if server agrees) Enabled
Microsoft network client: Send unencrypted password to third-party SMB servers Disabled
Microsoft network server: Amount of idle time required before suspending session 15 minutes
Microsoft network server: Digitally sign communications (always) Disabled
Microsoft network server: Digitally sign communications (if client agrees) Disabled
Microsoft network server: Disconnect clients when logon hours expire Enabled
Microsoft network server: Server SPN target name validation level Not Defined
Network access: Allow anonymous SID/Name translation Disabled
Network access: Do not allow anonymous enumeration of SAM accounts Enabled
Network access: Do not allow anonymous enumeration of SAM accounts and shares Disabled
Network access: Do not allow storage of passwords and credentials for network authentication Disabled
Network access: Let Everyone permissions apply to anonymous users Disabled
Network access: Named Pipes that can be accessed anonymously
Network access: Remotely accessible registry paths
System\CurrentControlSet\Control\ProductOptions, System\CurrentControlSet\Control\Server Applications, Software\Microsoft\Windows NT\CurrentVersion
Network access: Remotely accessible registry paths and sub-paths
System\CurrentControlSet\Control\Print\Printers, System\CurrentControlSet\Services\Eventlog, Software\Microsoft\OLAP Server, Software\Microsoft\Windows NT\CurrentVersion\Print, Software\Microsoft\Windows NT\CurrentVersion\Windows, System\CurrentControlSet\Control\ContentIndex, System\CurrentControlSet\Control\Terminal Server, System\CurrentControlSet\Control\Terminal Server\UserConfig, System\CurrentControlSet\Control\Terminal Server\DefaultUserConfiguration, Software\Microsoft\Windows NT\CurrentVersion\Perflib, System\CurrentControlSet\Services\SysmonLog

Network access: Restrict anonymous access to Named Pipes and Shares Enabled

Network access: Shares that can be accessed anonymously Not Defined

Network access: Sharing and security model for local accounts Classic - local users authenticate as themselves

Network security: Allow Local System to use computer identity for NTLM Not Defined

Network security: Allow LocalSystem NULL session fallback Not Defined

Network Security: Allow PKU2U authentication requests to this computer to use online identities Not Defined

Network security: Configure encryption types allowed for Kerberos Not Defined

Network security: Do not store LAN Manager hash value on next password change Enabled

Network security: Force logoff when logon hours expire Disabled

Network security: LAN Manager authentication level Not Defined

Network security: LDAP client signing requirements Negotiate signing

Network security: Minimum session security for NTLM SSP based (including secure RPC) clients Require 128-bit encryption

Network security: Minimum session security for NTLM SSP based (including secure RPC) servers Require 128-bit encryption

Network security: Restrict NTLM: Add remote server exceptions for NTLM authentication Not Defined

Network security: Restrict NTLM: Add server exceptions in this domain Not Defined

Network security: Restrict NTLM: Audit Incoming NTLM Traffic Not Defined

Network security: Restrict NTLM: Audit NTLM authentication in this domain Not Defined

Network security: Restrict NTLM: Incoming NTLM traffic Not Defined

Network security: Restrict NTLM: NTLM authentication in this domain Not Defined

Network security: Restrict NTLM: Outgoing NTLM traffic to remote servers Not Defined

Recovery console: Allow automatic administrative logon Enabled

Recovery console: Allow floppy copy and access to all drives and all folders Enabled

Shutdown: Allow system to be shut down without having to log on Enabled

Shutdown: Clear virtual memory pagefile Disabled

System cryptography: Force strong key protection for user keys stored on the computer Not Defined

System cryptography: Use FIPS compliant algorithms for encryption, hashing, and signing Disabled

System objects: Require case insensitivity for non-Windows subsystems Enabled

System objects: Strengthen default permissions of internal system objects (e.g. Symbolic Links) Enabled

System settings: Optional subsystems Posix

System settings: Use Certificate Rules on Windows Executables for Software Restriction Policies Disabled

User Account Control: Admin Approval Mode for the Built-in Administrator account Disabled

User Account Control: Allow UIAccess applications to prompt for elevation without using the secure desktop Disabled

User Account Control: Behavior of the elevation prompt for administrators in Admin Approval Mode Prompt for consent for non-Windows binaries

User Account Control: Behavior of the elevation prompt for standard users Prompt for credentials

User Account Control: Detect application installations and prompt for elevation Enabled

User Account Control: Only elevate executables that are signed and validated Disabled

User Account Control: Only elevate UIAccess applications that are installed in secure locations Enabled

User Account Control: Run all administrators in Admin Approval Mode Enabled

User Account Control: Switch to the secure desktop when prompting for elevation Enabled

User Account Control: Virtualize file and registry write failures to per-user locations Enabled
