STEMSHOP

Stem shop store is an online store for a wide variety of kids' educational toys and online courses.
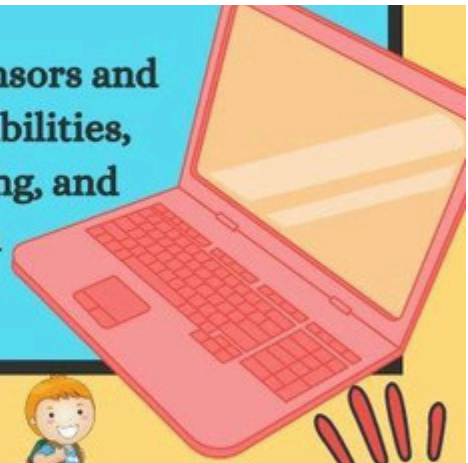

LEGO® SPIKE™ PRIME ROBOTICS CLASSES

In this program students learn to make robots and write programs using SPIKE™ Prime app to control different sensors and motors.

The SPIKE™ Prime app is based on SCRATCH programming and is an intuitive and easy to use programming environment, suitable for beginners and experienced users alike.

Kit includes smarthub, multiple sensors and motors which offers endless possibilities, promoting computational thinking, and engineering principles in a fun and engaging way.
