MathYug empowers Educators through E-Learning Solutions!

MathYug empowered Educators who are Growth-Oriented | IT & Digital Education Consulting Firm

MathYug is an IT and digital education consulting firm founded and built by a tech entrepreneur and teacher for teachers, professors, teacherpreneurs, and entrepreneurs. We provide affordable, easy-access online teacher training programmes as well as online entrepreneurial start-up business services, empowering teachers with one-stop solutions.

Teacher-Training Courses: Mathyug is focused on strengthening your teaching skills and allows you to deepen your knowledge and reach your teaching goals by studying independently at your own pace. We train teachers for all levels, from school to college, and our concept videos give them the confidence they need to teach all levels of students in various subjects worldwide.

Our Custom Web, Software & E-Commerce Development, Coding, and Design Services for your E-Learning Portal

MathYug is your one-stop solution for all your web designing and development needs, with a powerful front-end and solid back end. Our expertise lies in our customised software development services, which are a blend of technologies and features, as well as in the creation of high-quality, efficient, scalable, and secure custom e-commerce solutions for eLearning portals. We create business-driven, advanced technical backgrounds and online marketing strategies to assure a deep understanding of your target audiences and help you grow your audience and sales.

We support our clients with various digital services, including web design, custom-developed themes and extensions, custom software development, hardcoded SEO, SMO, schema support, support ticket functionality, LMS, technical management services, interactive and animated charts, user management services, payment gateways, powerful admin panels, full source code backup services, and much more.
