

# Nic Salt E-Liquids – Perfect Pairings for Low-Wattage Kits

Tidal Vape's nic salt e-liquids collection is a top choice for those seeking a smooth and satisfying nicotine experience. These 10ml bottles use nicotine salt instead of freebase, allowing for faster absorption with less throat irritation. They're perfect for low-wattage pod kits and starter devices.

Tidal Vape carries an extensive range from brands like [Elfliq by Elf Bar](#), Bar Juice, [IVG](#), [Nasty Juice](#), [Riot Squad](#), and Elux. You'll find classic tobacco, fruit, menthol, and sweet blends, all designed for daily use. [Nic salts](#) deliver a stronger nicotine hit in lower power setups, making them ideal for former smokers or those trying to reduce their intake without losing satisfaction.

Most options are available in 10mg and 20mg strengths, giving you flexibility based on your needs. Tidal Vape ensures every bottle is fully compliant and clearly labelled for ease of use. If you are after quick relief, great flavour, and a discreet vape, nic salts are the way to go. With such a wide variety, it's easy to find your next favourite flavour.

Nic salts are ideally suited for **low-wattage pod systems and starter kits**, and Tidal Vape offers a broad range from trusted brands like **Elfliq by Elf Bar**, **Bar Juice**, **IVG**, **Nasty Juice**, **Riot Squad**, and **Elux**. Whether you prefer classic tobacco, fresh menthol, sweet dessert, or juicy fruit blends, there's something for every palate.

These e-liquids work flawlessly with **popular pod devices** available at Tidal Vape:

- The [OXVA Xlim Pro 2](#) and [OXVA Nexlim](#) are ultra-compact kits that deliver excellent flavour and a tight mouth-to-lung draw – ideal for nic salts. Their refillable pods allow you to enjoy your favourite salt flavours while keeping costs down.
- For fans of **pre-filled pod convenience**, the [IVG Smart Max](#) and [IVG Pro 12](#) offer a smooth and mess-free experience with premium IVG nic salt flavours in pre-filled pods.
- The [VOOPOO Argus G3](#) brings more control to your nic salt vaping with adjustable wattage, fast charging, and smart coil recognition—all in a sleek, draw-activated format.
- While the [VOOPOO Vinci Spark 220](#) is a high-powered device more suited to sub-ohm vaping, it can still be paired with suitable MTL tanks and higher-resistance coils for nic salt users who prefer a mod-style setup with added battery life and display features.

Most nic salt options are available in **10mg and 20mg strengths**, giving you control over your nicotine intake. Every product is **TPD compliant** and clearly labelled, making it easy to match with your device. Whether you're switching from disposables or just want a smoother, flavour-packed experience, nic salts combined with the right pod kit deliver consistent satisfaction.
