Description:

Reed Environmental Services (RES) provides commercial, industrial, and residential surveys and oversight for all types of clients and project needs. Our services include mold, asbestos, lead, sewage, as well as illegal drug residues. RES is focused on providing high-quality service and customer satisfaction. We will do everything we can to exceed your expectations. No matter your need — asbestos, lead, mold, or sewage intrusion — we're sure you'll be happy working with us!
