Pros

- Intuitive and easy-to-use design
- Easy implementation and training
- Highly Customizable

Cons

- Doesn't offer signature pads
- Difficult to manage medication with

Here are some of the top-user reviews that you might like:

- It is the best e-prescribing solution I've used. I've used RXNT EHR and eRx for years, and so far, it's worked amazingly. It is simple and easy-to-use. I can easily send e-prescriptions to pharmacies all over the nation, and it goes out perfectly. – Richard, E. – Good Samaritan Hospital Medical Center
- I love RXNT's customer support. They're very engaging and helpful. I can't remember ever waiting on hold for more than a minute, and they always help fix whatever problem I'm facing. Sabrina, E. – Mind Spa
