

## Define own article lead

Define own lead paragraph using Set lead button in Options section during article editing.

Until today, when user published article, it's lead (short description of content) was generated automatically based on the beginning of published text.

Now, everyone can define own lead paragraph using **Set lead** button in **Options** section during editing the article.

**Custom lead:**

Set lead

Defined text will be displayed:

- 1) as an article description on user profile
- 2) below the title on the article page.
