**Description:**

Tenancy Solved is an organisation set up to serve the many people who may be having problems with their accommodation or their tenancy agreements. The world of letting is often challenging and even daunting for many, with difficulties over the tenant's legal rights and obligations, just as there can be problems for landlords, some of whom face difficulties with uncooperative tenants, or those who refuse to vacate a premises when the tenancy expires. Of course, most tenancies run smoothly to the benefit of both tenant and landlord, but if there is a problem, Tenancy Solved is there to act as a platform for the expression and discussion of thoughts and feelings. If you use the service, you will be able to join in the interchange of opinion and information, comment on the situation and volunteer solutions, which may be very helpful to your fellow tenants.
